Freight and Logistics industry news

Track and Trace standards

Issue 21, Christmas December 2023

The digitalisation of the freight sector has never been more important. Ensuring the freight transport process is as efficient and transparent as it can be is essential to serve the dynamic needs of the customer in these challenging times and to prepare for future growth.

For many years now, we have been working with industry and Government to provide the digital building blocks that are so critical to the industry transformation journey. Data standards are at the heart of optimising the opportunities offered by new technologies.

Help managing temperature-sensitive deliveries

As featured in Food & Beverage Industry News, the AIs now available with the Scan4Transport standard allow for min and max temperature ranges to be communicated via a scan of the 2D barcode.

Identical adoption of ISO standards by Standards Australia

In breaking news: GTIN, SSCC, GIAI, GRAI, GSIN and GS1 AIs have been recognised as Australian Standards!

In this milestone achievement, Standards Australia has agreed on identical adoptions of ISO standards that reference GS1 standards.

Sustainability & Circularity – Recycled Materials

GS1 Standards have a critical role in supporting the global industry transformation towards more responsible production and consumption systems (Global Sustainable Development Goal #12).

Environment Ministers have endorsed the proposed National Framework for Recycled Content Traceability – based on the GS1 Global Traceability Standard.

Maintain traceability and avoid supply chain delays

Incorrect SSCC labelling is the second highest cause of delay and rejection in the supply chain, following closely behind pallet issues.

Get your SSCC labels checked [here](#)

NEED HELP applying barcodes to products, with SSCC labelling or data warehousing?

Make your supply chain work effectively with our network of Solution Providers

Join the ANZ Scan4Transport work group

Join Logistic Service Providers, Shippers and Solution Providers across Australia and New Zealand attending this meeting to share learnings, discuss trials/implementations and highlight additional standards needed by industry.

The Scan4Transport Work Group will continue the conversation on the adoption and implementation of Scan4Transport. This meeting is held online and is open to all interested parties.

Next meeting planned for Qtr 1 2024
