August 2021

Standards in action across healthcare

Our focus is to work collaboratively with industry to support improvements to safety and quality in Healthcare through the implementation of GS1 standards.

This newsletter highlights some of the initiatives within the local and global community where GS1 standards play a role in improving Healthcare.

New - Recommendations for traceability systems for medicines

The International Coalition of Medicines Regulatory Authorities (ICMRA) recently released a new document titled 'Recommendations on common technical denominators for traceability systems for medicines to allow interoperability' which

supplements previous recommendations from the WHO.

Updated Healthcare dataset for the National Product Catalogue (NPC)

Following many months of consultation across the Australian Healthcare sector, an updated and simplified dataset for the NPC will be launched in late August. Our sincere thanks to the representatives from Public and Private Health, State Health teams, Federal Health Agency representatives, Distributors and Suppliers of medicines and medical devices. Further details will be shared in the coming weeks.

For NPC assistance:
