GS1 Australia Trade Practices
Compliance notice
Participants on GS1 Boards, committees, task forces, work groups, or other similar bodies, must always remember the purpose of the Board, committee task force, or work group is to enhance the ability of all industry members to compete more efficiently and effectively to provide better value to the consumer or end user.

GS1 activity almost always involves the cooperation of competitors; therefore great care must be taken to assure compliance with trade practices laws in Australia and in other jurisdictions. (Including the Australian Consumer Law, the Competition and Consumer Act and state based Fair Trading Legislation).
This Means:

- Participation must be voluntary, and failure to participate shall not be used to penalise any company.
- There shall be no discussion of prices, allocation of customers or products, boycotts, refusals to deal, or market share. (For the avoidance of doubt, this does not preclude discussion of GS1 Australia’s prices, customers or products.)
- If any participant believes the group is drifting toward impermissible discussion, the topic shall be tabled until the opinion of lawyer(s) with experience in trade practices law can be obtained.
- Where appropriate, meetings shall be governed by an agenda prepared in advance, and recorded by minutes prepared promptly after the meeting.
- Where appropriate, tests or data collection shall be governed by protocols developed by GS1 Australia.
- GS1 reserves the right to seek opinion of lawyer(s) with trade practices experience on any matter or document arising out of any GS1 activity.
- The recommendation coming out of a GS1 Board, committee, task force, work group or task group are just that. Individual companies remain free to make independent, competitive decisions.
- Any Standards developed must be voluntary standards.
AG Framework
Advisory Group framework

• The Advisory Group is a forum to:
  - discuss issues and opportunities within Recall space and wider traceability efforts
  - assist with prioritisation of development efforts
  - provide a mechanism for engaging with organisational recall management networks to assist with deployment programmes
  - advocate alignment of recall with systems & processes of all stakeholders
  - identify and escalate issues of national importance related to recall management

• Co-chairs: Andrea Currie (Coles), Lily Rattanaphasouk (Goodman Fielder)
  - Current term expires Q2 2021

• GS1 acts as secretariat and will operate as proxy co-chair as required

• Quorum Requirements for AG meetings:
  - Minimum attendees – 10
  - Optimal mix - 3 receivers, 5 suppliers, 2 associations
Review of past meeting actions
Actions arising from previous meeting

• FSANZ process appears to be requiring sponsors to work through the FSANZ checklist even though the portal has been setup to provide all FSANZ required information.

New wording submitted to FSANZ for Recall Protocol and Website. Awaiting confirmation

• GS1 to contact Julie (LionCo) to discuss checklist and system functionality re: bulk upload of products and variants

Chris to discuss in Issues/Challenges

• There are no other on-going past actions
Current Position of Recall Food, Liquor & Consumer Goods
Report Summary

• Recall notifications almost tripled FY 20 vs FY 19 (16 over 6) withdrawals on par
• Subscriber Onboarding 93% live
• 18 Notifications issued in Qtr 2 – 2 were Recall subscribed and issued via Recall
• 11 in Qtr 3 TD – 1 was Recall subscribed and issued via platform

• Questions?

• Pre-reads available here: https://www.gs1au.org/our-services/recall/gs1-australia-recall-and-recall-health
Recall Development Roadmap
Recall Roadmap - overview

- 3 releases for 2020 – more functionality sooner (same dev points)
- July release went smoothly – Introduced Recipient Management module and Optional TGA workflow
**Release 2 (July 20): Recipient Management**

- **Subscribed Recipient Group Management:** Users can create groups of companies that can be targeted easily from within a notification.
- **Extract of all subscribed recipients includes all company details (ABN, SA contact details) as well as links to any organisation hierarchy (VIC, WA)**

- **Non-Subscribed Recipient lists:**
  Users can upload lists of non-subscribed users that can be easily added within a notification.
  Non-subscribed recipients added within a notification are added automatically to Recipient Management area.

- Focus on providing recipients with detailed product distribution qty’s by tracking codes (batch/best before etc)
- Slightly over points balance (35 remain) but consolidation with Canada should enable us to fit all these in
Issues / Challenges
Issues / Challenges for discussion

- Recipient Management – identify trading partners affected vs. Recall recipients
  Enhancements deployed July 25th
  - Ability to maintain ‘groups’ of recipients
  - Ability to maintain list of non-subscribers

- Stakeholder usage
  - Re-enforcement of the Ready/Live status maintenance
    - Reminders from system and support team
    - New opportunities for training (videos, self help mock recall, digital checklist)

- Covid - 19
General Business
Recall Partners

- Revamp program
- Added benefits for partners
- New partners in pipeline
- Align to GS1 Alliance partner program
Industry Events – Recently attended

• 24 June – The power of collaboration
  INPAA product technical committee

Where are you in the digital transformation journey?
Retail is changing, and the future is driven by data. Discover how collaboration can benefit your company. Presented by GS1 Australia.
Recently Co-Hosted: -
GS1/PMA A-NZ Virtual Seminar

Co-hosted by PMA A-NZ and GS1 Australia via Zoom.

Discussions on how far the fresh produce industry has come, what we have learnt and what the future looks like.

Moderator: Deon Mahoney, PMA A-NZ
Special guest: Andrea Currie, Coles
Mark Booth, FSANZ and Sharon Jones, One Harvest
Industry Events – Upcoming

• 02 September AIFST Food Recall Interactive webinar
  - AIFST is pleased to be hosting a comprehensive workshop to help you develop the skills necessary to implement a program to evaluate and test the recall policies and procedures in place in your business.

Fortnightly from 10th June 2020 – NRA Technical safety cttee
- now monthly
Industry Events - Planning

- Working with INPAA for events and partnership - progressing
- Discussions with ATA working toward a proposal – waiting for content
- Discussions with HACCP Australia around awareness sessions
- Working on Recall workshop for non food with partner organisations
Expanding Recall reach - new engagement

• GM&A
  - Working with Industry Associations to target improving capability

• Healthcare
  - WA Health
  - SA Health
Marketing Activity

• **Drakes Supermarkets**
  Media release, collaborative campaign, training videos
  September 2020

• **Focused Awareness Campaign**
  - August – Dec 2020
  - Expand awareness and knowledge of the Recall platform using alternate marketing tactics
    • Giveaways
    • Online Quiz
    • Online Polls
    • Recall Bootcamps
    • Annual report: Industry trends
Marketing Activity

Traceability Update
Ecosystem Support

Peter Carter – Director of Business Development and Innovation
August 2020
Helping Industry Navigate Traceability

1. How can we help industry and government enhance supply chain resilience and performance

2. Helping GS1 Members navigate traceability demands and the surge in new solutions – many of which are not standards based

3. Support for an ecosystem and encouraging solution providers to understand and adopt GS1 global data standards
National GS1 Traceability Industry Advisory Group

Established to support Australian industry and government enhance supply chain traceability and trade

- Multi-sector representation to address linkages across supply chains
- State and federal government engagement – to inform and be informed of regulatory aspects of supply chain traceability
- Active management and communication of opportunities as well as risks to Australian industry
- Direct reporting and advice to the GS1 Australia Executive Team

80 members and growing

Register your interest
Traceability Solution Providers - Special Interest Group

- Open to all industries
- Support collaboration
- 90 participants
- Objective
  - networking,
  - sharing insights and
  - updates from industry and government representatives to discuss projects,
  - Issues and trends discussion and
  - align needs.

Supporting an Ecosystem
Supporting the Ecosystem

Goal for GS1
To better understand and support traceability solution providers to assist GS1 Members, Australian industry and government, with global data standards-based offerings to enhance supply chain traceability.

How to Communicate Product Recalls More Effectively?

Ljubomir Pupovac - UNSW
How to Communicate Product Recalls More Effectively?

Dr. Ljubomir Pupovac
Lecturer in Marketing, UNSW Business School
l.pupovac@unsw.edu.au
Overview

• Research team

• Research proposal

• How can we work together
Research team

Ljubomir Pupovac

Nitika Garg
Research proposal

• There has been a marked increase in product recalls

Figure 1. Number of Product Recalls in Australia per Year from 1986 to 2019

• PwC reported in 2016, more than 53 million automobiles were recalled in the US alone, a sharp increase from 20 million in 2010 (Kalavar, Mohr, and Mysore 2018)

• The management of product recalls has become a major concern for firms and government organisations
Research proposal

• Product recalls are the focus of many marketing studies

• Existing research in this area has examined firms’ initiatives during the recovery stage of the crisis such as the level of advertising expenditures, whether the firm or a third-party initiated the recall, how long the firm took to announce the recall, and whether the firm issued an apology

• Prior research has not identified how firms should execute product recall effectively once the announcement has been made
Research proposal

• Media reports from both the US and Australia show that at least some consumers who own the defective product refuse to return it after the recall announcement has been made.

• This behavior can present a threat to both consumer wellbeing, and the recalling firm’s reputation and performance.
Research proposal

Proposed research questions:

1) what language and structure the firm and/or government organisation (e.g. ACCC) should use, when issuing a product recall, and

2) when and how often the firm and/or government organisation should send the recall message to consumers and what the optimal time gap is between two messages

3) Open to your suggestions as well...
How can we work together

• Our goal: to develop a more effective recall communication strategy (publishing in some of the top marketing journals)

• Looking for *data* about different recalls and as much details about
  – 1) the recall (size, severity),
  – 2) communication strategy used
  – 3) product characteristics

• An industry partner(s) to join our application for Australian Research Council funding
Thank you

| 065 | HC & FB  | Further Update to Note functionality | Note functionality could be more useful if it had extra capacity              | - An option to extract all note threads to pdf and print/download the notes  
- Tracking delivery/receipt of notes sent to recipients                                                                                                                                                                                                                          |              | TBC        |
| 079 | FB       | Mandatory ACCC notice        | A notice is sent to ACCC on Class 1 and 2 recall classification, however the trigger should be recall level | The trigger for a notice to be sent to ACCC automatically is dependant on the Notification being of a Recall type notification type, then whether it is a class 1 or 2. The trigger should actually be dependant on the Recall Level field i.e. Consumer / Hospital |
| 082 | HC & FB  | Recipient Qty Affected       | Recipient affected quantity difficult to populate for initiator. Currently sits in additional information once recipient added | Recipient Qty Affected field needs to be easily populated by initiator after selecting recipients. Currently, initiator can provide this info via additional information section, however a number of other fields are mandatory. This field could possibly appear in recipients area after recipients added as an additional column, also appear in status report/Report Progress for recipient, Item Count, to show the recipient how much stock they were sent or have on hand. Item count should become mandatory for subscribed recipients when reporting back (but doesn't need to reconcile with rec. qty. affected number) |              | TBC        |
