7-Eleven Thailand boosts consumer safety

7-Eleven stores in Thailand wanted to ensure that expired products were not being sold to consumers; this is why they began labelling products and upgrading equipment.

Revolutionising the food and beverage industry

The power of 2D barcodes continue to be demonstrated across the food and beverage industry, but the full potential of this technology is yet to be fully achieved.

The Missing Billions: the real cost of the supply chain waste

It’s not news that billions of dollars' worth of revenue is lost every year in discarded inventory, but that’s just the tip of a melting iceberg.
National Location Registry

This is a central database that allows "Location Owners" to load validated location information online. And then shared with authorised users. Location information for each location record can include:

- Trading or operating hours for peak periods
- Safety constraints at a site
- Driver amenities
- Weight/height restrictions

Learn how the National Location Registry works.
