

Annual Report, Reporting Period: 03/2023 to 03/2024

ACORN ANNUAL REPORT

Solidaridad

Colombia

Annual Report Number: 2
Reporting Period: 03/2023 to 03/2024

Introduction

Acorn projects are required to provide Acorn with an Annual Report within 3 months after the end of each reporting period. This document represents the template that should be used and is intended to record project progress. It differs from the Acorn Design Document (ADD) in that the ADD captures the project design and the annual report reflects the outcome of the design.

Depending on results and developments within a project, changes must be recorded in the ADD in addition to the annual report. Please see Table 1b below in this document to guide you on what document and what section requires updating. The annual report, and if applicable together with the updated ADD, should be uploaded onto the portal. Acorn is available for assisting the local partners in drafting the required documentation. For version numbering and file naming please consult Acorn.

On a randomly selected basis, the certifier and a third-party auditor will review a project's design and progress. Therefore, these parties will require annual report(s) and an updated ADD. Annual reports can also be used for the purpose of updating (potential) buyers.

Introduction	2
Overview	1
Executive Summary	1
1 Acorn Design Document Updates	2
2 Project Implementation	4
2.1 Carbon Regulations	4
2.2 Project Council	4
2.3 Grievances	4
2.4 Other Stakeholder Consultations	26
2.5 Project Scaling	29
2.6 Double counting	30
3 Project Finances	31
4 Carbon Monitoring	32
4.1 Carbon Removal Units	32
4.2 Carbon Benefit Losses	32
5 Monitoring Indicators and Risk Safeguards	33
5.1 Livelihood Monitoring	33
5.2 Ecosystem Monitoring	33
5.3 Risk Monitoring	34
Annexes	35
Annex 1 – Project Council Report(s)	35
Annex 2 – Other Stakeholder Consultations	35
Annex 3 – Sample Signed Agreements	35
Annex 4 – Ecoregion Maps	35
Annex 6 – Business Case	35
Annex 7 – Benefit Sharing Mechanism	36

Overview

Location:	The project is taking place in 6 regions within Colombia. These are Risaralda, Tolima, Huila, Caldas, Antioquia, Bolivar and Santander.
ADD Approval Date:	01/03/2022
Project Start Date:	01/2019
Reporting Period:	03/2023 to 03/2024
Submission Date:	21/09/2024
Auditing:	The project was validated by Aenor in 10/2022
Version	2
Framework version	1.0
Auditing Date:	The project was validated by Aenor in 10/2022

Executive Summary

The second reporting period of this project has seen a big expansion both on number of participants as well as total area covered by the project. The reason behind this is not only the increase in the number of coffee producers as participants, but also the incorporation of cocoa producers as participants. As a result, the project has also included a new agroforestry design and business case focused solely on the implementation of agroforestry system within cacao producing plots. At the same time, Solidaridad has opted to include a new project council and making a total of 2 project councils to achieve better representativeness of participants throughout the project area. From now on, this project will have a project council called Central Region Project Council and one called South Occidental Project Council.

1 Acorn Design Document Updates

Table 1a Summary of Changes to Acorn Design Document

ADD Section	Description of Change
Part A; Project Summary	The number of participating farmers and extension of the project area was increased, as well as the list of partnering organizations. Also, cacao was added as a main cash crops, as the project has expanded to include producers of cacao. As a consequence, the aims and objectives the project has broadened to target cacao producers too. Overall, the whole section has been updated to include details of the new target group and cash crop.
Part B; Eligibility Checklist	The section has been re assessed and a few changes were introduced given the inclusion a new target group and cash crop (Cacao),
Part C; Additionality Assessment	The section has been re assessed and a few changes were introduced given the inclusion a new target group and cash crop (Cacao).
Part D; Carbon Baseline Assessment	The section has been re assessed and a few changes were introduced given the inclusion a new target group and cash crop. Specifically, the sections of current land use ,deforestation potential tree list species from ground truth and description of ecoregions to include the new onboarded plots belonging to cacao farmers.
Part E; Farmer Surveys	The section has been modified as new farmers surveys were included to have a baseline of the new onboarded cacao producers. While values have changed (this is described further ahead in this document) the total amount of surveyed farmers has reached 100.
Part F; Project Activities	This sections has undergone changes. The reason being, the addition of relevant information regarding the agroforestry design implemented in the cacao plots.
Part G: Project Council and Grievance Mechanism	The section was modified to include and describe the new governance structure of the project. This change lead to the creation of two different project councils, one for the central region of the project area and one for the southern region. The representatives of each project council were also specified in the ADD.
Part H: Organisational Capacity	New Details were added in this section to reflect the experience and history of Solidaridad working with cacao producers in the country and project area
Part I: Payments and Benefit Sharing	The section was updated to include the business case related information for cacao producers and implications for the local partner.

Part K : Reversal Risk Assessment	The sections was re assessed given the onboarding of the new crop (cacao) and its plots. Risks identified remained as they were.
-----------------------------------	----------------------------------------------------------------------------------------------------------------------------------

**Table can be left blank if no updated to the ADD were made.*

Table 1b Date of Most Recent ADD Updates

ADD Section	Required Update Frequency	Date of Submission or Most Recent Update
Part A; Project Summary	When applicable	06/01/2023
Part B; Eligibility Checklist	Once at the start	06/01/2023
Part C; Additionality Assessment	At least every 10 years	06/01/2023
Part D; Carbon Baseline Assessment	At least every 3 years	06/01/2023
Part E; Farmer Surveys	At least every 10 years	06/01/2023
Part F; Project Activities	At least every 3 years	06/01/2023
Part G; Project Council and Grievance Mechanism	When applicable	06/01/2023
Part H; Organisational Capacity	When applicable	06/01/2023
Part I; Financial Feasibility	When applicable	06/01/2023
Part J; Payments and Benefit Sharing	When applicable	06/01/2023
Part K; Stakeholder Analysis	At least every 3 years	1/03/2022
Part L; Risk Assessment	At least every 3 years	06/01/2023
Part M; Monitoring Plan	When applicable	1/03/2022
Part N; Technical specifications	At least every 3 years	1/03/2022
Annexes	When applicable	06/01/2023

Table 1c Response to open Corrective/Forward Actions Required*

During this reporting period, no answer to CARs or FARs has taken place. A new verification of the project will take place during the third reporting period.

CAR/FAR	Timeframe	Response	Source
Not applicable	Not applicable	Not applicable	Not applicable

**Table can be left blank if no CARs or FARs are reported.*

2 Project Implementation

2.1 Carbon Regulations

Solidaridad is actively working on its cooperation with both local and national environmental authorities. In this way, it seeks to stay up to date on the latest development of any related policy to Carbon Credits. Also, as mentioned in its previous annual report, during 2022 a memorandum of understanding has been signed between different non-governmental organizations active in the coffee sector and the national government of Colombia. The document states the intention of all involved actors to make coffee value chains more resilient to climate change, while promoting the conservation and restoration of forests in the country.

2.2 Project Council

Table 2.2 Project Council overview

Date project council took place	Project Council	Representation of council	Number of people present	Location (region)
10/08/2023	South Occidental Region	The project council represents participants of the south occidental region of the project area	11	Popayán, Cauca
06/10/2023	Central Region	The project council represents participants of the central region of the project area	12	Supia, Caldas
05/03/2024	Central Region	The project council represents participants of the central region of the project area	21	Supia, Caldas
13/03/2024	South Occidental Region	The project council represents participants of the south occidental region of the project area	14	Popayán, Cauca

2.3 Grievances

Table 2.3a Summary Grievance Register

Grievances Raised	Grievances Resolved	Grievances Unresolved
145	145	0

2.4 Other Stakeholder Consultations

Table 2.4 Stakeholder Consultation Activities

Date	Activity	Stakeholder Group	Description	Attendees	Evidence
June 2023	18 different activities took place	Local farmers, project participants, community members of the project area and farmers that are not part of Acorn.	Activities ranged from trainings to promotion and explanation of the Acorn program as well as discussion of topics such as food security and gender balance	1684	https://estrategiaacorn.agrolearning.org/
August 2023	41 different activities took place	Local farmers, project participants, community members of the project area and farmers that are not part of Acorn.	There were trainings on nurseries management, fertilization and tool handling as well as socialization of topics like climate change and the role of women in the farm and the Acorn project as promoters	857	https://estrategiaacorn.agrolearning.org/
September 2023	31 activities took place during this month	Acorn participants and community members	The Acorn project was socialized and promoted among farmers and	726	https://estrategiaacorn.agrolearning.org/

			communities . Also, there were workshops given on the topics of gender balance, tool handling and ecological fertilisers among others.		
October 2023	29 activities took place during this month	Acorn participants and community members	Activities developed with participants and local communities were similar to previous ones but as an addition, there were also workshops on youth role in the farms and agroforestry systems	441	https://estrategiaacorn.agrolearning.org/
November 2023	53 activities took place during this month	Acorn participants and community members	Similar workshops as the ones given in the previous months took place. However, new topics were also discussed, such as fertilization with low carbon footprint	976	https://estrategiaacorn.agrolearning.org/
December 2023	15 activities took place during December	Acorn participants and	New topics were added to previous trainings.	323	https://estrategiaacorn.agrolearning.org/

		community members	Such as gender paradigms and coffee quality		
January 2024	26 activities took place during January	Acorn participants and community members	Workshops and topics previously given were re-introduced among assistance. Ranging from climate change sensitization to regenerative agriculture and women and youth roles in the project and communities	678	https://estrategiaacorn.agrolearning.org/
February 2024	43 activities took place during this month	Acorn participants and community members	Same topics as previously promoted among farmers were worked on by Solidaridad during the activities of the month. Additionality , the topic of women entrepreneurship was included as part of the themes of the workshops.	2930	https://estrategiaacorn.agrolearning.org/
March 2024	59 activities took place during March	Acorn participants and community members	Same topics as previously covered were worked on during	2559	https://estrategiaacorn.agrolearning.org/

			the month activities. This time, a new workshop on soil conservation was included		
April 2024	50 activities took place during April	Acorn participants and community members	Same topics as previously covered during the reporting period were developed in the monthly workshops and events	3323	https://estrategiaacorn.agrolearning.org/

2.5 Project Scaling

Table 2.5a New plots & participants

Ecoregion	Agroforestry design	Project Council	Number of newly added Participants	Number of New Plots	Total project size (ha)
Magdalena valley montane forest	Coffee & Cacao agroforestry designs	Central Region Project Council	7842	7842	22458,76 hectares
Cauca Valley montane forests	Coffee & Cacao agroforestry designs	South Occidental Project Council	3022	3022	13259,74 hectares
North western Andean forest	Coffee & Cacao agroforestry designs	Central Region Project Council	3317	3317	4960,74 hectares

Magdalena Valley dry forest	Coffee & Cacao agroforestry designs	South Occidental Project Council	1691	1691	2645,91 hectares
Magdalena Urabá moist forest	Coffee & Cacao agroforestry designs	South Occidental Project Council	1010	1010	1275,68 hectares
Cordillera Oriental	Coffee & Cacao agroforestry designs	Central Region Project Council	894	894	394,83 hectares

**Please note, the amount of plots are participants onboarded during the reporting period is the same for each ecoregion.*

Table 2.5b Describe the impact of scaling on the Agroforestry Design and Business Case

The coffee plots and farmers were the initial target group of this project, while these have been increasing, Solidaridad expanded to a new target group, cacao smallholder farmers and their plots. While the increase of coffee farmers did not imply any changes on the business case, Solidaridad developed a new business case for cacao farmers.

2.6 Double counting

No double counting has been reported.

3 Project Finances

Table 3a Summary of Changes to Business Case

Business case tab & name	Row & Column number	Description of change
<i>Solidaridad Cacao Business Case</i>	<i>New Business Case created</i>	<i>New Business Case created</i>

Table 3b Summary of Project Finances Since the Start of the Acorn Project

Provided. Concealed for data protection purposes.

Table 3c Summary of Project Finances for the Reporting Period

Provided. Concealed for data protection purposes.

4 Carbon Monitoring

4.1 Carbon Removal Units

For real-time CRU information see our [website](#)

*Please note if the project is selected for validation/verification a data package for CRU Calculations is provided by Acorn.

Table 4.1 Summary of CRUs throughout the project period. *(This table will be prefilled by Acorn).*

	Calculation Period		
	Historic	Reporting Period	Total
CRUs Generated	31,034	1,827	32,861
CRUs Sold	15,216	16,119	31,335
CRUs Reserved	0	0	0
CRUs Available	15,818	-14,292	1,526
BCRUs Generated	0	0	0
BCRUs Reserved	0	0	0

Note: In this reporting period, project sold CRUs generated in previous year.

4.2 Carbon Benefit Losses

No event has occurred that has resulted in a significant loss of carbon benefits. Consequently, Table 4.2 has been left empty.

**Table can be left blank if no carbon benefit losses were observed.*

Table 4.2 Summary of Events Generating Losses of Carbon Benefits

Event Number	<i>Not applicable</i>
Project Area(s) Affected	<i>Not applicable</i>
Participants Affected	<i>Not applicable</i>
Description	<i>Not applicable</i>
CRU Impact	<i>Not applicable</i>
E&S Impact	<i>Not applicable</i>
BCRUs	<i>Not applicable</i>
Response	<i>Not applicable</i>

5 Monitoring Indicators and Risk Safeguards

5.1 Livelihood Monitoring

This section only requires updating every three years, when new assessments are conducted.

Complete Table 5.1a to summarize mandatory livelihood monitoring results and Table 5.1b for the additional indicator(s) selected at project design phase.

Table 5.1a Mandatory Livelihood Monitoring Results

Indicator	Metric	Baseline Metric Value	Current Metric Value	Causes and Adjustments (If applicable)
Farmer Financial State	CRU Revenue	0	0	<i>At the start of this project, participants had not received CRUs before</i>
Nutritional Variety	Average number of food groups consumed	7	8	<i>The baseline values were updated due to the upscaling of the project, including cacao producers, which required new baseline surveys</i>

Table 5.1b Additional Livelihood Monitoring Results*

Indicator	Metric	Baseline Metric Value	Current Metric Value	Causes and Adjustments (If applicable)
Agricultural land use productivity	Farm output value per hectare per crop type [kg/ha/crop].	870 kg/ha/ year of coffee as cash crop	1078 kg/ha/ year of coffee and cacao as cash crops	<i>The baseline values were updated due to the upscaling of the project, including cacao producers, which required new baseline surveys</i>

*Only the additional indicators chosen at project design need to be completed.

5.2 Ecosystem Monitoring

Complete Table 5.2 to summarize ecosystem monitoring results achieved during the assessment period of 3 years for the fixed indicators below.

Table 5.2 Ecosystem Monitoring Results

Indicator	Metric	Baseline Metric Value	Current Metric Value	Causes and Adjustments (If applicable)
Agricultural Biodiversity	Gini-Simpson Index value.	50.67	50.05	<i>The baseline values were updated due to the</i>

				<i>upscaling of the project, including cacao producers, which required new baseline surveys</i>
--	--	--	--	-------------------------------------------------------------------------------------------------

5.3 Risk Monitoring

Table 5.3 has been left empty as the project only identified low and medium risks, no high risks. Under the Acorn Framework v1.0, only high risks need to be described and mitigation measures set. This will be reassessed again after 3 years.

Table 5.3 Risk Monitoring Overview

Identified Risk Areas or Potential Negative Impacts	Mitigation Action	Monitoring Action	Status
<i>Not applicable</i>	<i>Not applicable</i>	<i>Not applicable</i>	<i>Not applicable</i>
