

Full Arch Digital Workflow

Virginia Beach, Virginia

22.5CE

Lecture with Live Patient Demonstration

The Atlantic Implant Institute is pleased to present this “**Full-arch Digital Workflow Course**” with live patient demonstration. The course offers a combination of in-depth lectures, discussions, and live patient demonstrations. Doctors, lab technicians, and team members will experience first-hand how to implement full arch procedures and digital technology into their practice. The techniques covered throughout the course includes, but are not limited to, patient consultations, coding for dental implants, staff management, treatment planning, case selection criteria, 3D imaging interpretation, guided surgical protocols, surgical tips, prosthetic treatment, implant placement, and full-arch/teeth-in-a-day conversion protocols.

Learning Objectives:

- Learn case selection, radiographic interpretation, case presentation, digital photography, and digital treatment planning with surgical guides for full arch.
- Understand the scientific rationale and justification for the full arch procedure.
- Compare dental materials properties with PMMA, nanoceramic- reinforced PMMA and Zirconia for both provisional and final full arch prosthetics.
- Understand business management, finances, dental coding, advertising, marketing, and building an in-house laboratory for full arch.
- Discover complete digital workflow principles in full arch, utilizing tools such as photogrammetry, intra-oral scanning and 3D printing.
- Discover principles of full arch digital design and fabrication of PMMA and Zirconia full arch prosthesis.

Date: February 2-4, 2023

Time: Day 1: 8 a.m. to 5 p.m.

Day 2: 8 a.m. to 6 p.m.

Day 3: 8 a.m. to 4 p.m.

Speakers: Dr. Adam Hogan,
Dr. Alex Molinari, Marithe Baclagon

Subject Code: 690

SAC: Advanced

Type: Lecture

Audience: Dentists, Lab Technicians,
Prosthodontists

Location: Atlantic Implant Institute
4429 Shore Drive
Virginia Beach, Virginia

Speakers

Dr. Adam Hogan is an accomplished implant dentist, lifelong learner, teacher, father, and resident of Virginia Beach. He has spent countless hours in post graduate education on dental implants, cosmetic dentistry, and reconstructive dentistry. Since 2006 he has operated an implant based general dental practice known as Implant Dentistry of Virginia. In 2018, Dr. Hogan changed his practice name to Full Implant Choice. He converted his office from a general practice to one specializing in dental implant surgery and complex reconstruction. Dr. Hogan created an in-office, dental laboratory for streamlined full arch treatment. In 2021, Dr. Hogan launched the Atlantic Implant Institute to advance the education and learning opportunities for dentists and laboratory technicians.

Dr. Alex Molinari currently the Director of Clinical Professional Relations and Education for Neodent USA, Inc. Dr. Molinari received a PhD in Periodontics from the Pontifical Catholic University of Paraná (PUC-PR_BRAZIL), and a master's degree of implantology by the São Leopoldo Mandic University(Campinas, BRAZIL). Dr. Molinari is a specialist in periodontics at the University of Santa Catarina (UFSC – Florianopolis - BRAZIL) and holds a graduate degree in implant prosthesis from the University of Sagrado Coração (USC – Bauru - BRAZIL). He formerly taught at ILAPEO in Curitiba, BRAZIL and was a Neodent consultant for 15 years. His research has been published in international journals and books about dental implants.

Marithe Baclagon (CDT, Te, M.Ed.), aka: the RVAToothFairy on Instagram, is a certified dental technician of 12 years with a speciality in ceramics and digital design. She discovered her passion for art and science in dentistry at a very young age. She pursued her education in dentistry at the age of 18 attending different universities to satiate her knowledge for dentistry. An associates, bachelors, and Master's Degree later, she's found the Atlantic Implant Institute to share her knowledge. She has been fortunate to join with Dr. Hogan and Neodent to provide insight on their full arch digital and conventional workflows.
