Title: Level 2: Implants in the Esthetic Zone

Instructor: Dr. Corey Raymond

Overview: Level 2 gives attendees two days of didactic training where they learn how to safely and predictably place implants in the anterior and achieve highly esthetic results. It covers the importance of soft tissue, anatomy and histology for long-term implant success, implant prosthetic options, guided surgery, lateral ridge augmentation, and the necessary dental photographs to obtain the best esthetic results. The third day, attendees will perform live patient care on all aspects covered during the course.

Objectives:

- Understand implant surgical protocols in the anterior
- Learn how to complete guided surgery
- Learn lateral ridge augmentation
- Understand how to maintain and generate proper soft tissue architecture
- Determine implant prosthetics in the esthetic zone
- Learn fabrication of immediate temps and custom healing abutments
- Understand dental photography to achieve esthetic restorations

Cost: \$4,750/attendee

CE Credits: 24 Hours

Start/End Times: 9am-5pm over three days

Location: Academy of Modern Implant Dentistry
700 S Henderson Rd Suite 306
King of Prussia, PA 19406

Audience: GP, OS, Perio, Prosth

Registration: visit implanttrainer.com or use this link <https://implanttrainer.aidaform.com/free-course-registration-form> at least four weeks before course start date

Cancellation: You must cancel at least three weeks before course start date to receive a refund
