

CHANDELIER HOISTS

Machine Category:
Chandelier Hoists

Industry: Mobile Machinery

Country: USA

Product Series:
IXARC-MAG-APS

Specification:
Absolute MT, current output

Competing Technical Solution:

- Replacing incremental encoders

Benefits of Technical Solution

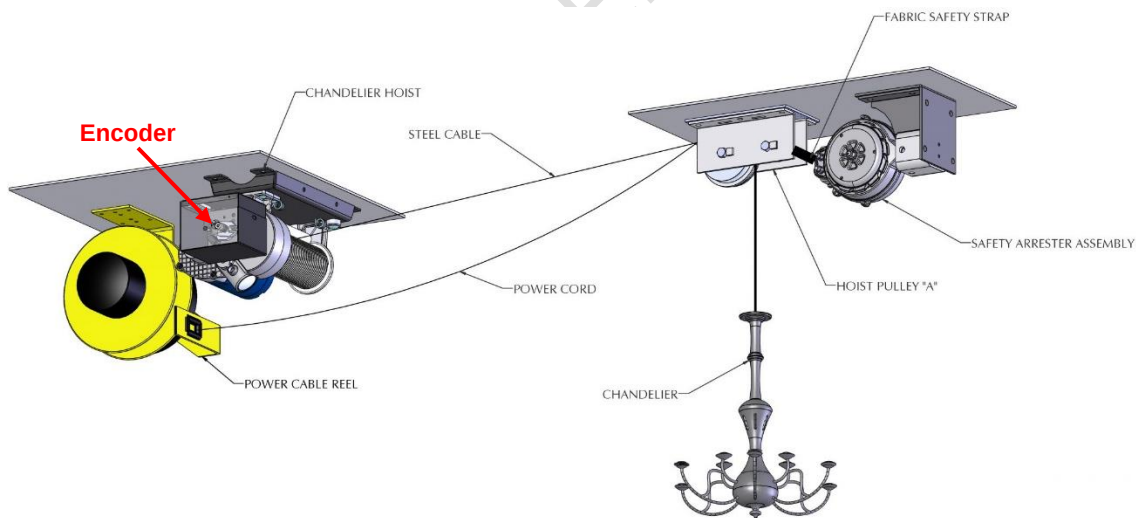

Encoder used for position (height) measurement of the chandelier. Before an incremental encoder was used, but loss of pulses during operation and after power downs lead to frequent equipment/building damages.

The 4-20mA current loop output can easily be read by the simple PLC used.

Reasons for Choosing POSITAL

- variety of interfaces
- low cost pigtail option
- implementation support
