

WIRELINE TRUCK

Machine Category:
Wireline Truck

Industry: Mobile Machinery

Country: USA

Product Series:
IXARC-EX

Specification:
Incremental, programmable, Zone 2/22, stainless, custom mechanics

Competing Technical Solution:

- Replacing Dynapar & Scancon encoders

Benefits of Technical Solution

Encoder used for length measurement in measuring head of winch. Custom mechanics provides droop in replacement with benefit of higher IP rating, lower torque and improved corrosion resistance.

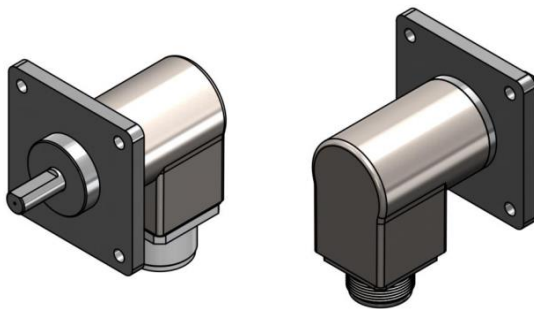

Programmability reduces stocking requirements at customer, because several PPRs are used on different winches.

Reasons for Choosing POSITAL

- programmability, high IP rating, stainless
- capability to customize (reduce torque)
- rugged magnetic technology
- competitive pricing for a Zone 2/22 product
