

ROBOTIC SYSTEMS – LINEAR ACTUATOR

Machine Category:
Linear Actuator

Industry: Industrial Robots, Attachments and Parts
Robotic Systems

Country: Japan

Product:
Multiturn Kit Encoder, 36 mm & 22 mm

Specification:
Multiturn without Battery, BISS-C

Competing Technical Solution: Incremental
encoder with counter module

Benefits of Technical Solution

Our Multiturn Kit Encoder is cheaper and more compact than the combination of incremental encoder and counter module. No replacement of battery as in previously used counter module.

Reasons For Choosing POSITAL

Multiturn without battery, serial interface, price, consulting and customization of mechanical interface.
