

BELT CONVEYOR

Machine Category:
Belt Conveyor

Industry: Material Handling

Country: China

Product Series:
IXARC Incremental Encoder

Specification:
Incremental encoders, Full shaft

Competing Technical Solution:
Omron, SICK

Benefits of Technical Solution

Incremental encoders used on belt conveyor can monitor both the speed and displacement (cargo on the belt) efficiently. With POSITAL programmable encoder, the customer can configure the pulse according to specific requirements of different parts of conveyors in a system.

Reasons for Choosing POSITAL

Customer Relationship
Programmability
