

VIBRATORY HAMMER

Machine Category:
Piling/drilling machinery

Industry: Offshore Equipment

Country: Netherlands

Product Series:
ACS (MEMS) and AGS (fluid-cell) inclinometer

Specification:
CANopen, high accuracy

Further illustrations:

Benefits of Technical Solution:

The ACS MEMS inclinometers are used for 360° measurements when the head is rotating. The high accuracy of the AGS fluid-cell based inclinometer is needed for the precise alignment around the 0° angle.

Reasons for Choosing POSITAL:

Both MEMS and Fluid-cell inclinometers available with short delivery times and good accuracy of the sensors
