

OPTIMAR – FREEZING RACK LOADER

Machine Category:

Food Processing Freezing Rack Loader

<https://www.youtube.com/watch?v=xiQDX-PEGKE>

Industry: Food Packing Machine

Country: Norway

Product:

Incremental Encoder Stainless Steel

Specification:

Stainless Steel 316L, incremental

Competing Technical Solution:

Incremental encoder

Benefits of Technical Solution

Programmable Stainless Steel 316L incremental encoders, meets hygienic requirements for food processing, magnetic technology, operating temperature -40C

Reasons For Choosing POSITAL

Available stainless steel encoders in 316L grade, programmable encoders, flexible deliveries, high IP rating, good local support, fast response, and short lead time.
