

IT SPECIALIST / IT DESIGNER (FULL TIME, HYBRID HOME/ON-SITE) (M / F)

Company

FRABA is a group of enterprises focused on providing advanced products for the motion control and industrial automation market. With subsidiaries in Heerlen/ The Netherlands, Aachen and Cologne/ Germany, Slubice/ Poland, Hamilton NJ/ USA, Singapore and Shanghai FRABA is offering global support to its customers worldwide.

Competence

It is our philosophy to offer a challenging yet rewarding work environment for every employee of our team. Total information, dynamic development, competence, and fair sharing are our values. Initiative, ideas, knowledge, energy, and risk taking are our drivers and everybody who has them has the right to make decisions. At FRABA, leadership is not depending on education or hierarchy, but on knowledge and performance of each individual.

As an you will become part of our team in Slubice your field of responsibility will be:

Responsibilities

- Automation and integration of on-premises and cloud systems with PowerShell, Python and other mechanisms
- Management of computer entities operating at the plant in Slubice and related entities abroad
- Management of Cloud Services like MS365, Azure, etc.
- Ongoing monitoring of global IT networks and computer hardware
- Computer hardware diagnostics and IT inventory management (equipment distribution among employees and installation of system access for new and existing employees)
- Purchase of IT equipment in accordance with the current needs of the company
- Providing technical support for users (help desk service - diagnosing and solving problems)

If you have the initiative, knowledge, information, energy, and courage to make a decision, we urge you to do so. At FRABA everybody has the chance to become a leader. It is up to you to take your chance.

Requirements

It is our philosophy to hire talented individuals, who are willing to learn and develop their skills, not specialized know-how. As an applicant you should fit into the following profile:

- Experience with scripting languages such as PowerShell, Python or others and ability to break down complex processes in simple tasks.
- IT Generalist with basic experience in multiple fields including but not limited to: Hardware, OS, Networks, Cloud Management etc. Extended experience is an advantage but not mandatory.
- Possessing education and knowledge in the field of computer science or related areas.
- Knowledge in the field of: Microsoft Active Directory, Networking. Basic knowledge of Linux and Windows OS is necessary.
- Ability to use English.
- Great communication skills to aid in problem solving for internal and external topics.

- Ready to undertake long-term cooperation and be a team player.
- Ready to perform tasks independently, interpersonal, and professional development.
- Having the ability to organize work, initiative, and commitment.
- Willing to learn new technologies and have the desire to explore new possibilities.

We offer

- Work in an international environment with pleasant and friendly atmosphere
- Employment contract
- Flexible working hours and a hybrid approach to home-office presence.
- Medical package.
- Possibility of traveling between related companies (Slubice, Heerlen, Aachen, Cologne).
