

CRANES AND LIFTING

Machine Category:
Hydraulic Gantries

Industry: Material Handling Equipment

Country: Netherlands

Product Series:
LINARIX

Specification:
Analog Output, Magnetic

Competing Technical Solution:
Potentiometer

Benefits of Technical Solution:

Our Linear Sensor have better accuracy compared to the existing solution with potentiometers and draw-wire. Additionally, our sensor has faster response time and rugged mechanics.

Reasons For Choosing POSITAL:

Accurate measuring system and good quality without failures in the field.
