

TESTING AND INSPECTION EQUIPMENT ON ENGINEERING SERVICE

Machine Category: Testing and Inspection Equipment

Industry: Engineering Service

Country: China

Product Series: ACS

Specification: IP68/IP69K, Analog current, 2Axes

Competing Technical Solution: Local brands

Benefits of Technical Solution:

Posital ACK sensor is attached to the historical relic for monitoring the tilt of the object. The compact design and the easy installation without any special tools make it a good choice for monitoring the ancient object.

Reasons For Choosing POSITAL:

Reliable product performance, fast respond service and stable analog output.
