

CONTAINER STRIP AND PALLETISING SYSTEMS

**Machine Category:**

Internal transport, Palletization

Industry: Material Handling Equipment

Country: Netherlands

Product Series:

LINARIX

Specification:

Analog Output, Magnetic

Competing Technical Solution:

GEMAC inclination sensors

Benefits of Technical Solution

Our Linear Sensor can be able to measure accurately the height of the boxes and bags gripper. By this way, there is less chance that the gripper goes too high and hits the roof of the container or hits the floor much harder.

Reasons for Choosing POSITAL

Have better compact size than competitors, have very accurate measuring system and practically no failure.
