

FIRE TRUCKS

Machine Category:
Fire Trucks

Industry: Buses, Trucks

Country: Netherlands

Product Series:
IXARC UCD Profinet

Specification:
Ethernet, Magnetic, Multiturn

Competing Technical Solution:
Other encoder manufacturers

Benefits of Technical Solution:

Turbine extinguishers can operate automatically with a minimum of manual process and lifted by a spindle lift. Our Profinet absolute encoder stands for the synchronization of left and right movement on the spindle lift.

Reasons For Choosing POSITAL:

Magnetic technology and high protection class (IP66/IP67), high accuracy, high variety of temperature range
