

Golden Circle Tours

Reykjavik Excursions offer a wide selection of guided Golden Circle tours for those who want to see the best of Iceland.

The well known Golden Circle mainly consists of 3 sites: Geysir geothermal area where hot springs are in abundance, geysers explode and pools of mud bubble, Gullfoss, the queen of Icelandic waterfalls and last but not least Þingvellir National Park, where Iceland's most important historical events have taken place as well as being a designated UNESCO World Heritage Site.

For those who want to add something different to the Golden Circle tour: a one-hour snowmobile ride on Langjökull glacier, a one-hour ATV ride, horse riding or steam bathing at Laugarvatn Fontana are ideal additions to a perfect day.

A must do when in Iceland!

Northern Lights Tours

There is nothing more breathtaking than seeing the northern lights dancing in the sky. The northern lights are caused by the interaction of particles from the sun with the upper atmosphere near the North Pole. That creates this wonderful light effect, known as the aurora borealis (northern lights).

The northern lights are a spectacular natural phenomenon, often seen dancing around in fantastic colours across the Icelandic Arctic sky.

A sight not to be missed!

If you don't see any lights you can join our RE62 Northern Lights Tour for free.

These tours depend on weather and sightings are not guaranteed. Indicated return times can vary. The locations visited differ from tour to tour since we go where the best conditions are to see the northern lights each evening.

Golden Circle Direct & The Lava Tunnel

Daily 09:00 - 12:00 & 12:30 - 18:30

Begin the day with witnessing the inner works of a volcanic eruption while we walk in the path of lava that flowed thousands of years ago. The lava tunnel is one of the biggest in Iceland and gets up to 30 metres wide and 10 metres high. The fantastic range of colours of the tunnel walls is caused by the different mineral types of the rock and the lava tube ceiling has caved in near the entrance, creating beautiful columns of light.

The next part of the tour takes you to three of Iceland's most stunning sights; Gullfoss waterfall, Geysir geothermal area and the famous Þingvellir National Park.

South Coast & Katla Natural Ice Cave

Mo Tu We Th Fr Sa Su
 07:30 - 22:00

Our South Coast & Katla Natural Ice Cave tour is the perfect way to experience the scenic south coast of Iceland with all it has to offer: spectacular mountains, glaciers, waterfalls, rock formations and beaches.

We head out of Reykjavik and among the stops during the day are the Lava Centre, two beautiful waterfalls, Skógafoss and Seljalandsfoss and the picturesque village of Vík. From Vík we take a short super jeep tour up to the glacier and take a 5-10 minute fun hike to the ice cave. The ice cave is totally stunning and you will hear about its fascinating history and some interesting facts about the surrounding area.

An adventure of a lifetime!
