The Lava Tunnel - Caving in Raufarhólshellir

Mon, Thu, Sat & Sun 09:00 - 12:00

On this excellent tour we visit the lava tunnel Raufarhólshellir located only 30 minutes from Reykjavik. We will witness the inner works of a volcanic eruption while we walk in the path of lava that flowed thousands of years ago.

The lava tunnel is one of the biggest in Iceland and gets up to 30 metres wide and 10 metres high. The lava tube ceiling has caved in near the entrance, which creates beautiful columns of light. The fantastic range of colours of the tunnel walls is caused by the different mineral types in the walls of the tunnel.

Scenes from the Hollywood movie Noah, with Russell Crowe and Anthony Hopkins, were shot in this lava cave.
