## LiveHealth Online FAQs

### **What is LiveHealth Online?**

With LiveHealth Online, you have a doctor by your side 24/7. LiveHealth Online lets you talk face-to-face with a doctor through your mobile device or a computer with a webcam. No appointments, no driving, and no waiting at an urgent care center.

Use LiveHealth Online for common health concerns like colds, the flu, fevers, rashes, infections, allergies, and more! It's faster, easier, and more convenient than a visit to an urgent care center.

### **Why would I use LiveHealth Online instead of going to visit my doctor in person?**

LiveHealth Online is not meant to replace your primary care physician. It's a convenient option for care when your physician is not available. LiveHealth Online connects you with a board-certified doctor in just a couple of minutes. Plus, you can get a LiveHealth Online visit summary from the *MyHealth* tab to print, email, or fax to your primary doctor.

LiveHealth Online should not be used for emergency care. If you experience a medical emergency, call **911** immediately.

### **When is LiveHealth Online available?**

Doctors are available on LiveHealth Online 24/7, 365 days a year.

### **Is there a LiveHealth Online app that I can download to my smartphone?**

Yes. To use a mobile device, search for LiveHealth Online in the App Store or on Google Play. To learn what mobile devices are supported and get instructions, click [here](#).

### **Do doctors have access to my health information?**

Sometimes. It depends on whether or not you set up an account. With a LiveHealth Online account, you can allow doctors to access and review your health information from past visits. Also, to help keep track of your own health information, you can self-report it at [livehealthonline.com](http://livehealthonline.com). Go to the *My Health* tab and then select *My Health Record*.

### **How does LiveHealth Online work?**

When you need to see a doctor, simply go to [livehealthonline.com](http://livehealthonline.com) or access the LiveHealth Online mobile app. Select the state you are located in and answer a few questions.

Establishing an account allows you to securely store your personal and health information. Plus, you can easily connect with doctors in the future, share your health history, and schedule online visits at times that fit your schedule.

Once connected, you can talk and interact with the doctor as if you were in a private exam room.

**How long does a LiveHealth Online session with a doctor usually last?**

A typical LiveHealth Online session lasts about 10 minutes.

**How does it cost to use LiveHealth Online?**

The cost for an online doctor visit is just \$49 if you don't have a health plan, if your plan doesn't cover online visits, or if you haven't met your plan's deductible. If your health plan covers these visits, you may owe less. Either way, you will always see what you owe before you begin a visit.

**Will I be charged more if I use LiveHealth Online on weekends, holidays, or at night?**

No, the cost is the same.

**How do I pay for a LiveHealth Online session?**

You may use Visa, MasterCard, Discover, and American Express debit and credit cards for payment. Keep in mind that charges for prescriptions aren't included in the cost of your visit.

**Can I get online care from a doctor if I'm traveling or in another state?**

Yes, just make sure to select the state you're in under *My Location* and you'll only see doctors licensed to treat you in that state. Don't forget to change your state back when you get home.

**Why do some states offer prescriptions after my visit and other states don't?**

Some state laws and regulations require a face-to-face visit before allowing prescriptions. Every state is different. The laws may change so check the LiveHealth Online [Availability](#) page to see if there have been changes in your state. Please note that doctors using LiveHealth Online are not able to prescribe controlled substances or lifestyle drugs.

**Do I have what I need to access doctors through LiveHealth Online?**

You will need high-speed Internet access and a webcam or built-in camera with audio capability. To learn what computer hardware and software you need, click [here](#).
