

# David Boland

## EXPERIENCE

### Nansen, Chicago — *Technical Lead*

DEC 2020 - PRESENT

- Identifying strategies for growing Nansen's technical team and capabilities.
- Leading the process for hiring and training new developers, including the development of code tests, creating training material, and leading lunch and learns.
- Guiding team members with technical and career development.
- Leading developers across different technology teams that span multiple continents.
- Reviewing code from peer pull requests, providing feedback based on clean architecture and coding standards.
- Leading the development of high-traffic or foundational components of applications.
- Coordinating with client IT teams to ensure a smooth delivery.

### Nansen, Chicago — *Senior Developer*

DEC 2014 - DEC 2020

- Contributed to and led projects through every phase of the development pipeline, including sales, discovery, delivery, launch, and maintenance.
- Led the product development of applications sold in a CMS Marketplace.
- Led the development of several POC projects that leveraged IoT, Bluetooth, and AR technologies.

### Adage Technologies, Chicago — *Web Developer*

MAR 2013 - DEC 2014

- Developed enterprise scale websites for clients in various industries.

## PROJECTS

### Development Blog, [davidboland.site](http://davidboland.site)

A personal/professional blog, built with Contentful CMS and Gatsby static site generator. Hosted on Netlify.

### Pixzle, Apple App Store

A Native iOS app built in Objective-C. This was a gamified photo sharing application that sent photos between users as puzzles.

### Episerver Development Lab, Miami

Ran a lab teaching developers how to implement progressive web apps (PWAs) into their existing web applications.
