# DISPATCH COFFEE WHOLESALE

Denia and Reiniel Ramirez, single producers from Comayagua, Honduras featured on our menu from 2021-2023.

We're a small (but ambitious!) Montreal-based roaster with a mission to bring positive change to coffee systems. Ultimately, we believe in the power of doing good. Our business is founded on the belief that coffee could be better: fairer for farmers, more delicious, transparent and educational for consumers.

We are a team of 40 coffee professionals with a combined 100 years in the coffee industry, spanning expertise in supply chain, brewing, roasting and customer service.

Our buying approach is radically focused on exceptional quality, transparency, and (actual) fair trade practices. To qualify on our menu, a coffee needs to achieve a baseline quality score, and equally important, provide compensation and supply chain transparency straight to the farmer(s). In 2022 we paid 50% higher than Fair Trade price for our coffee. See our [2022 Transparency report](#) for more about how we approach responsible business.
