

**Colorado's hidden crisis isn't just a statistic; it's a reality many face.**

**Together, we can CHANGE that reality.**

Justice Necessary commissioned a study in Spring 2024 to better understand the extent of period poverty, diaper need, and the struggle to afford basic hygiene products among Coloradans – issues that we work to address every day. Through responses from over 1,250 women in Colorado, the research underscores the urgent need for increased awareness, support, and government assistance to ensure all Colorado households have access to essential hygiene products.
