

# Addition & Subtraction

Year 1 / P2

## Activity 1

Can you find all the answers? Use the number line to help you.

Remember, if you are adding you count up the number line. If you are subtracting you count down the number line.

$3 + 5 = \square$	$5 + 2 = \square$	$9 - 1 = \square$	$5 + 5 = \square$	$10 - 7 = \square$
$2 + 4 = \square$	$8 + 6 = \square$	$7 - 6 = \square$	$1 + 8 = \square$	$3 - 2 = \square$
$6 + 4 = \square$	$10 - 9 = \square$	$5 + 4 = \square$	$4 + 4 = \square$	$6 - 3 = \square$

## Activity 2

Use your addition and subtraction to solve the following problems.

Alexina has 5 apples and 2 bananas.  
How many pieces of fruit does she have altogether?

Ahmed has 4 blue fish and 3 white fish.  
How many fish does he have in total?

Samantha had 8 socks but she lost 3 of them.  
How many does she have left?

# Addition & Subtraction

Year 1 / P2

## Activity 3

Find the answers to these questions.

$4 + 0 = \square$	$3 + 0 = \square$	$5 + 0 = \square$	$9 + 0 = \square$	$7 + 0 = \square$
$10 - 0 = \square$	$2 - 0 = \square$	$8 - 0 = \square$	$1 - 0 = \square$	$4 - 0 = \square$

Can you write a sentence about what happens when you add or subtract 0?

.....

.....

## Activity 4

Look at the following calculations. What do you notice about them?

$14 + 6 = 20$	$6 + 14 = 20$
$20 - 16 = 4$	$20 - 4 = 16$

Use the first calculation to help you solve the second calculation.

$15 + 5 = 20$	$5 + \square = 20$
$11 + 7 = 18$	$18 - 7 = \square$
$13 - 8 = 5$	$13 - \square = 8$
$20 - 18 = 2$	$2 + 18 = \square$
$8 + 9 = 17$	$17 - \square = 9$
