## About our maths and English workshops

Our unique maths and English workshops are **designed by teachers for teachers.**

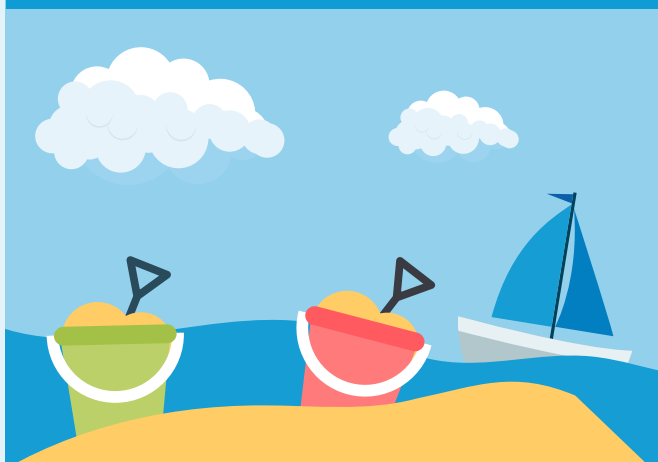

The workshops help your class develop skills such as problem solving, reasoning, language and literacy. They will be able to apply their knowledge of the curriculum in engaging ways and gives you the chance to sit back and observe your class in action.

## Statistics

### What's on the beach?

Pupils become wildlife conservationists and survey the beach pollution to help keep the wildlife safe. They will record and present data and construct tables/tally charts to show their findings. The children will ask and answer simple questions about totalling and comparing categorical data.

- Categorising
- Systematic working
- Recording

## Geometry

### Safari Shapes

Whilst on safari we come across a funny looking elephant! Can pupils identify the properties of the shapes making up the elephant and investigate the relationship between them?

- 2D shapes
- Problem solving
- Recording

# Maths Workshops

## Number

### Fruit Shop

On a visit to a special fruit shop, your class are challenged to work systematically to find all possible combinations of how the bananas, apples and oranges can be grouped together.

- Problem solving
- Systematic working
- Recording

# English Workshops

## Figurative

### Black and White Planet

Aliens are on their way to Earth from a black and white planet. Children will write a letter to the aliens, vividly describing the colours on planet Earth to reduce the shock when they land.

- Descriptive writing
- Collaborative learning

## Figurative

### Musical Adventures

Different emotions are conjured up when listening to different types of music. Discover how this translates into different drawings and writing in your class.

- Creative writing
- Collaborative learning
