AP1, AP2, are categorised as O1 legacy products and are subject to strict MOQs for Key blanks. ANS & CNS systems are categorised as O2 Legacy\*\* products. For all systems, key blanks in unique profiles are subject to an MOQ of 100 units. Smaller MOQs are available for 50 & 70 profile families only.

\*Only available while keyblank stocks last.

\*\*In line with dormakaba's PLM process, O2 Legacy products are liable for additional surcharges.

\*\*\*Key blanks for legacy cylinder systems ordered against unique profiles carry MOQs of 100 units. Where a price is presented for a single unit, this is only applicable to 050 to 059 & 070-079 profiles.

Where keyblanks are required with specific pre-drilled SE Positions, a separate part number is required for each SE combination.
