# pextra Q High Security Cylinders

## Patent Protected until 2042

The new dormakaba pextra Q serrated key system provides multiple layers of protection for high-security serial lock cylinders and master key systems. The unique patent-protected, precision milled double undercut (branch groove) offers exceptional protection against illegal key duplication.

Manufactured to the highest engineering standards, its versatility makes it ideal for securing and organising access to any building – not only family homes and residential complexes, but also public buildings and industrial properties.

pextra Q cylinders have a high level of resistance to picking, bumping and drilling due to a number of antidrill pins throughout the whole of the cylinder and pinning chambers. This puts them among the most secure small lock cylinders available on the market.

## pextra Q Guard TS007 3\* High Security Cylinders

### Patent Protected until 2042

Part of the pextra Q cylinder family, the new pextra Q Guard has been specifically developed to meet the stringent requirements of the TS007 3-Star standard for lock cylinders. Carrying the coveted BSI Kitemark\* and endorsed by Secured by Design, the official police security initiative, pextra Q Guard has a unique patent-protected, precision-milled double undercut (branch groove) which offers exceptional protection against illegal key duplication.

In addition to exceptional key copying protection, the cylinder itself provides multiple layers of physical protection for high-security installations. Physical security consists of resistance to picking, bumping and drilling due to several anti-drill pins throughout the cylinder pinning chambers. This puts them among the most secure lock cylinders available on the market.

Manufactured to the highest engineering standards, its versatility makes it ideal for securing and organising access to any building, from protecting family homes and residential complexes through to securing public buildings and industrial properties.

<b>Mastering Charge:</b>	No charge**
<b>Keyed Alike Cylinders:</b>	No charge

\*The TS007 Kitemark only applies to Euro profile cylinders. Only those cylinders built by dormakaba and/or partners covered by dormakaba's Kitemark license are valid. Any modifications made to a kitemarked cylinder by a 3rd party/unlicensed party voids this certification.

\*\*Mastering Fee waived as part of pextra Q introductory offer. Normal Mastering Fee of £15.34 will be reinstated in 2025

# Cylinder Care & Maintenance

dormakaba Lock cylinders are precision-engineered mechanical products offering the highest levels of security, performance and quality. Although proven to be extremely robust and durable, it is important that they are regularly maintained.

The dormakaba cleaner is specifically designed to clean and maintain all kinds of lock cylinders. Decades of practical experience and laboratory-proven physical properties put the new formula in a class of its own. Unlike many of the products available from other manufacturers, the dormakaba cleaner does not thicken, eliminating the need to constantly re-lubricate the lock cylinder.
