A seamless blend of comfort, capability and discovery

Launched in 2019, the *Greg Mortimer* is a cutting-edge expedition vessel purpose-built to explore the polar regions—and it brings that same spirit of adventure to Alaska's glacial waters. The ship's signature inverted X-Bow™ delivers exceptional stability in dynamic seas, while its intimate 154-guest capacity fosters a personal onboard experience. From hydraulic viewing platforms that extend over the water for extraordinary wildlife encounters, to rapid-deploy Zodiac platforms that offer swift access to nature—every detail is designed to deepen your connection to Alaska's untamed landscapes.

This innovative expedition vessel blends cutting-edge design with immersive onboard experiences, delivering unforgettable encounters with Alaska.

It is the first passenger ship to feature the inverted Ulstein X-BOW, which glides through waves for a smoother, more fuel-efficient journey. Purpose-built for exploration, the ship features expansive observation decks, hydraulic viewing platforms and four Zodiac launch platforms that quickly bring guests close to Alaska's wild waterways.

Inviting communal spaces and onboard amenities such as a sauna with sea views, two Jacuzzis and a top-deck dining area offer relaxing places to unwind between adventures.
