**Built to handle deep swells and towering waves, the *National Geographic Explorer* lends herself to globe-spanning travel and a dedication to curiosity and wonder.**

Originally constructed for service along Norway's coast as part of the famed Hurtigruten, or Coastal Express, she ferried passengers among the fjords of this iconic coast in conditions that could deteriorate into heavy seas in a matter of minutes. She had to be able to handle deep swells and towering waves—and have a high degree of maneuverability. Those traits, and an ideal size, made her a natural choice for addition to the Lindblad fleet.

The plans to completely rebuild her drew on 50 years of pioneering expedition history and expertise. *National Geographic Explorer* was equipped with an ice-strengthened hull and advanced navigation equipment for polar expeditions; a roster of tools for exploration; and a well-appointed interior with vast expanses of glass for an unprecedented connection to the environment. Her interior and exterior design embodied the Lindblad expedition ethos—the privilege of wildness and the luxury of comfort.

For many guests she remains their paradigm of an expedition ship. She is devoted to exploration—from her Welcoming Bridge, and the Chart Room below it where you can tuck in to warm up with a hot chocolate, to her high-perched Observation deck with its aqueous light and compelling 24/7 views. Even the art on the walls— from the Hurley prints of Shackleton’s expedition to the stunning National Geographic photos— tells an uber- narrative of globe-spanning travel and a dedication to curiosity and wonder.

*National Geographic Explorer* is a state-of-the-art expedition ship. She is a fully stabilized, ice-class vessel, with an ice-reinforced hull, enabling her to navigate polar passages while providing exceptional comfort.

## Self-Disinfecting Ships

ACT Clean Coat™ is a light-activated, self-disinfecting cleaning process that continuously breaks down viruses, bacteria, mold, and airborne allergens across all ship surfaces. Not only does this create a cleaner, healthier shipboard environment for guests and crew alike, but this non-toxic, chemical-free system also saves more than one million gallons of water each year in our cleaning procedures, and reduces our carbon footprint as well as the amount of plastic and waste in our supply chain.
