1. CORPORATE STRUCTURE

1.1 Name, Address and Incorporation

Laurentian Bank of Canada (the **Bank**), a Schedule I chartered bank subject to the provisions of the *Bank Act* (Canada), was founded in Montréal in 1846 as a savings mutual bank. It became a share-issuing corporation under a charter granted on April 27, 1871, pursuant to an act of Parliament of Canada concerning savings banks. Prior to September 28, 1987, the Bank was known as The Montreal City and District Savings Bank. On that date, it became a chartered bank under Schedule II of the *Bank Act* (Canada) pursuant to letters patent issued by the Minister of Finance of Canada. On January 1, 1994, Desjardins-Laurentian Financial Corporation became the majority shareholder of the Bank following its acquisition of the Bank's then parent corporation, Laurentian Group Corporation. On November 12, 1997, Desjardins-Laurentian Financial Corporation, which held 57.5% of the common shares of the Bank, sold its shares by way of secondary distribution. The Bank thereby became a bank listed under Schedule I of the *Bank Act* (Canada). The *Bank Act* (Canada) is the Bank's charter and governs its operations.

The Bank's head and registered office is located at 1360 René-Lévesque Boulevard West, Suite 600, Montréal, Québec, Canada, H3G 0E5.

1.2 Intercorporate Relationships

Information about intercorporate relationships with significant subsidiaries, including place of incorporation and percentage of securities owned by the Bank, is provided on page 136 of the Bank's 2025 Annual Report, which information is incorporated by reference herein.

1.3 Acceleration of Strategic Shift to Specialty Commercial Bank

Subsequent to year-end, the Bank announced on December 2, 2025 a significant acceleration of its 2024 Strategic Plan toward its specialty commercial bank model, resulting in its exit from the retail and SME banking business. This transformation will position the Bank as a commercially oriented bank, concentrating on commercial real estate lending, inventory and equipment financing, intermediary services and capital markets activities.

National Bank of Canada (directly or through one or more affiliates) has entered into a definitive agreement to acquire the Bank's retail and SME banking portfolios. The Bank and National Bank have also entered into a definitive agreement in respect of the sale to National Bank of the Bank's syndicated loan portfolio.

In parallel, Fairstone Bank of Canada, Canada's leading alternative lender and a Schedule I bank, has entered into a definitive agreement to acquire all issued and outstanding common shares of the Bank.

Additional Information about the transactions can be found on page 83 of the Bank's 2025 Annual Report and in Note 1.1: "TRANSACTIONS ANNOUNCED ON DECEMBER 2, 2025" of the Bank's Consolidated Financial Statements as at October 31, 2025, which information is incorporated by reference.

In addition, the Bank provides financial solutions and services to commercial customers in the United States.

The Personal & Commercial Banking segment provides a broad range of financial services and advice-based solutions for personal and commercial banking customers across Canada and the United States.

Personal Banking

The Bank provides its personal banking customers with financial advice for their day-to-day banking, financing, protection and investing needs. The products and services include bank accounts, transactional packages, term deposits, mutual funds, credit cards, unsecured credit, residential real estate secured financing and creditor protection. The distribution network consists of a branch network located in the province of Québec and of a private banking team that offers wealth management and financial planning services.

The Bank also provides its personal banking customers with digital banking services, offering online access to many daily banking services including digital high-interest savings accounts, digital guaranteed investment certificates, digital chequing accounts, online bill payment, and automated banking machine access. Customers can also access a range of transactional services including bill payments, transfers, mortgage and credit card information and Interac e-transfers. In addition, personal banking customers can access various daily banking services by phone, via the mobile app, or online through *LBCDirect* and the online credit card platform.

The Bank also operates B2B Bank as a separate Schedule I bank with regional representation across Canada. B2B Bank offers financial professionals and their customers, directly or indirectly, various products and services including investment loans, registered savings plans loans, tax-free savings account loans, savings accounts, short and long term guaranteed investment certificates, mortgage solutions, individual and group registered and non-registered investment accounts, investment products, and consolidated statements and tax reporting.

Commercial Banking

The Bank assists its commercial banking clients across Canada, and in certain markets in the United States, with their commercial financial needs. The Bank's commercial banking business specializes in four main areas:

- real estate financing (project financing of residential or commercial properties as well as land financing; primarily through construction and term loans);
- equipment financing and inventory financing;
- commercial small and mid-sized business financing; and
- syndication.

On October 29, 2024, the Bank announced that its LBC Capital and Northpoint Commercial Finance subsidiaries are uniting under one brand, Northpoint Commercial Finance (Northpoint), as of November 1, 2024. The merging of these two brands delivers streamlined efficiencies and offerings for its customers throughout North America.

Other major contributors to the Bank's revenue are: (i) fees and commissions on loans and deposits (including lending fees, service charges, and card service revenues); (ii) financial markets related revenue (including income from financial instruments and fees and securities brokerage commissions); and (iii) income from mutual funds. For the fiscal year 2025, the Bank generated \$983.7 million in total revenues.

As at October 31, 2025, the Bank had \$50.1 billion in balance sheet assets and \$25.5 billion in assets under administration.

2.3 Additional Information Relating to the Business

2.3.1 Products and Services

The Bank provides various lending services and related products by offering (i) personal loans, (ii) residential mortgage loans, and (iii) commercial loans. Information on the Bank's investment policies and lending and investment restrictions can be found under the heading "Risk Appetite and Risk Management Framework", beginning on page 40 of the Bank's 2025 Annual Report, which information is incorporated by reference herein.

Personal Loans

The Bank's personal loan portfolio includes a range of consumer credit products, such as investment loans, home-equity lines of credit, registered retirement saving plan loans, credit cards, personal lines of credit and other consumer loans. Investment loans represent the largest segment of the Bank's personal loan portfolio.

The Bank's personal loan underwriting process generally takes into consideration a customer's credit risk and investment collateral values. Loans may then be authorized on the basis of a customer's loan servicing ability and overall financial strength, determined mainly through that customer's credit score. In addition, some of these loans are collateralized through a comprehensive list of eligible mutual funds and segregated funds. Stricter credit criteria are applied to borrowers as loan-to-value ratios increase. For loans where disbursements are significant, additional personal income and net worth information is usually required of a customer.

Residential Mortgage Loans

The Bank's residential mortgage loan portfolio includes residential mortgage loans secured by one- to four-unit dwellings. The residential mortgage loan portfolio is geographically diversified across Canada, but predominantly in Québec and Ontario. The Bank's residential mortgage loan underwriting process takes into consideration a number of factors, including the value of the property and the customer's credit risk.

Commercial Loans

The Bank's commercial loan portfolio, including customers' liabilities under acceptances, is targeted to specific markets, enabling the Bank to compete more efficiently across Canada, as well as in certain regions and markets of the United States. The Bank's commercial loans are generally secured by a wide range of assets, such as real estate, equipment, and inventories. In certain cases, additional security for commercial loans, in the form of collateral mortgages, may be required by the Bank.

The Bank's real estate financing loans are secured by specific mortgages. These can include multiple unit dwellings, commercial properties, office buildings, shopping centres or land. The Bank's real estate financing business is located exclusively in Canada.

The Bank's inventory financing portfolio offers financing solutions to manufacturers of, and dealers in, recreational vehicles, marine transport, trailers, manufactured housing, light construction, power sports, outdoor power equipment, technology, consumer electronics and appliances.

The Bank's equipment financing portfolio offers equipment financing and leasing solutions (primarily through loan and lease facilities) to dealers and end users in the acquisition or refinancing of technology office equipment, transportation equipment, construction equipment, and corporate aircraft.

The Bank's commercial small to mid-size business portfolio offers services to small to mid-size business owners operating primarily in diversified industries, including but not limited to, daycare, manufacturing and distribution industries in Canada.

The Bank's syndication portfolio business offers financing solutions to mid-sized and large businesses in diversified industries, throughout Canada for working capital, fixed assets, mergers and acquisitions. This segment mainly includes the Bank's participation in loan syndicates with other Canadian banks.

2.3.2 New Products and Service Developments

Commercial specializations continue to be the Bank's core business and growth engine, with a nationally-scaled lending platform. The Bank maintains a disciplined approach in its business mix and continues to grow organically into those segments to drive scalability.

In Personal Banking, the Bank combines digital capabilities with a network of advisors and brokers to offer personalized service to its customers.

The Bank's Capital Markets division offers a focused and aligned suite of services to institutions and commercial customers, supporting the establishment and development of deep relationships.

Additional information on the Bank's product and service developments and enhancements is contained in the Bank's 2025 Annual Report under the heading "Business Highlights", beginning on page 22, which information is incorporated by reference herein.

2.3.3 Competitive Conditions

In Canada, the Bank competes with other Canadian chartered banks and multiple other financial institutions in providing commercial financial services and retail banking products. In the United States, the Bank operates in niche markets through Northpoint Commercial Finance.

In the financial services industry, the Bank competes with other foreign banks, digital banks, trust and loan companies, credit unions, monoline financial organizations, financial services cooperatives, insurance companies, alternative financing companies, mutual fund companies, independent brokers and securities brokers and dealers. The Bank also faces growing competition from emerging fintech companies. Despite the competitive landscape, the Bank's product and service offerings enable it to compete effectively within the financial services industry. By focusing its efforts on, and excelling in, its core strength areas, the Bank is able to remain competitive in the mid-tier financial services market.

The Bank has positioned itself as an alternative to the larger six Canadian banks, allowing the Bank to use its size to its advantage and offer flexible solutions to its customers, while remaining agile in assessing new opportunities. In addition, the Bank's strategy regarding digital banking remains an important area of focus.

2.3.4 Cycles

The Bank's business generally follows the same business cycles and seasonal variations as many other Canadian banks. Seasonal variations in the Bank's business are relatively minor. Some of the Bank's businesses, such as those involved in financial intermediation are not as affected by seasonal variation. Other businesses, such as the capital markets trading business, are subject to more volatility, which affects the income of those businesses accordingly. Variations in market interest rates, equity markets, or credit conditions can also influence the Bank's results. Non-recurring events, such as business acquisitions and divestitures or specific regulatory development, are not part of the Bank's normal business cycle and can therefore have a significant impact on the Bank's revenues and expenses.

Further information on the Bank's business cycle can be found under the heading "Analysis of Quarterly Results", beginning on page 30 of the Bank's 2025 Annual Report, which information is incorporated by reference.

2.3.5 Number of Employees and Specialized Skills or Knowledge

The Bank had approximately 2,800 employees at the end of the fiscal year 2025. It is critical for the Bank's employees to have a broad range of skills, knowledge, and expertise so they can address the challenges posed by the increasing complexity of modern banking, where technology plays a crucial role. To meet these challenges, the Bank routinely hires new employees with specialized skill sets and knowledge and provides continuous training to existing employees, facilitating effective knowledge transfer. The Bank employs these specialists in each of its business segments and in support, corporate and leadership roles. These specialists ensure that the Bank's operations run as efficiently as possible, and that it is continuously developing and expanding products and services to best meet the needs of its customers.

The Bank is committed to transparency and ongoing communication with employees and stakeholders. After the transactions announced on December 2, 2025, described in section 1.3 of the AIF, Fairstone Bank, the Bank and National Bank will work together to ensure a smooth transition. Detailed integration plans will be shared in due course to provide clarity and support throughout the transition period. Pursuant to the National Bank transactions, the Bank's branches and employees will not be transferred to National Bank. Once the transactions are completed, affected Bank employees who are interested will be able to apply for open roles at National Bank through a dedicated channel.

2.3.6 Intangible Properties

The Bank uses intangible assets in its day-to-day operations, including software and assets that are either purchased or internally developed. Information on the Bank's intangible assets can be found on page 108 of the Bank's 2025 Annual Report and in Note 9 "Goodwill, Software and Other Intangible Assets" of the Bank's Consolidated Financial Statements as at October 31, 2025, which information is incorporated by reference.

2.3.7 Economic Dependence and Changes to Contracts

The Bank's business does not substantially depend on any single contract. No aspect of the Bank's business was materially affected by the termination or renegotiation of any contract or subcontract in the fiscal year 2025.

2.3.8 Foreign Operations

The Bank acquired a United States inventory finance business in August 2017, operating today as Northpoint Commercial Finance LLC.

2.3.9 Social or Environment Policies

The Bank's strategic plan is underpinned by a commitment to foster prosperity for its customers and to deliver on ESG initiatives that reflect the environmental and social consciousness of its employees, customers, and shareholders. The Bank has appointed Sonia Hernandez, a member of its leadership team, as the Bank's ESG Champion, and the Bank's Board and committee mandates include oversight of ESG. Further information about the Bank's ESG approach, policies, and performance can be found in the MD&A under the "Environmental and social risk" section, beginning on page 64, which information is incorporated by reference.

2.4 Risk Factors

4. DIVIDENDS

The Board must approve dividend payments on preferred and common shares on a quarterly basis. The amount of dividends declared on common shares reflects the Bank's management's and Board's views of the Bank's financial outlook and considers market and regulatory expectations and the Bank's growth objectives.

4.1 Restrictions on Dividends and Distributions

Restrictions to the declaration and payment of dividends are described on page 112 of the Bank's 2025 Annual Report in Note 15 "Share Capital" of the Bank's Consolidated Financial Statements as at October 31, 2025, which note is incorporated by reference herein.

The Bank may not declare dividends on its preferred or common shares if the payment of such dividends would contravene provisions of the *Bank Act* (Canada) or OSFI guidelines and requirements governing capital adequacy and liquidity or under the provisions of other applicable regulations. In addition, the Bank may only pay dividends on the common shares if it has paid all dividends declared and payable on the Bank's preferred shares or if the Bank has set aside sufficient funds to do so. The Board determines the amount and payment of future dividends. The decision of the Board depends on the Bank's activity, financial situation and cash flow requirements, OSFI supervisory expectations, future regulatory restrictions on the payment of dividends and any other factors that the Board considers to be relevant.

4.2 Policy on Dividends and Distributions

The Bank seeks to regularly declare a dividend on its common shares that falls within the range of 40% to 50% of adjusted net income available to common shareholders¹. The dividend payout ratio could, however, fall outside this range when:

¹ Adjusted net income available to common shareholders is a non-GAAP financial measure. The most directly comparable financial measure that is disclosed in the primary financial statements of the Bank to which this measure relates is net income available to common shareholders. Non-GAAP financial measures are not standardized financial measures under the financial reporting framework used to prepare the financial statements of the Bank to which the non-GAAP financial measures relate and might not be comparable to similar financial measures disclosed by other issuers. For more information, refer to the "Non-GAAP Financial and Other Measures" section beginning on page 20 of the 2025 Annual Report, including the Management's Discussion and Analysis for the fiscal year ended October 31, 2025, which page is incorporated by reference herein. The MD&A is available on SEDAR+ at www.sedarplus.ca.

- management believes it is necessary to ensure that capital is maintained at an optimal level for both supporting the Bank's operations and complying with regulatory requirements;
- net income available to common shareholders is affected by operations or events of a non-recurring nature; or
- net income available to common shareholders is at an atypical level and the forecasts indicate a return to a normal level.

For additional information on the Bank's dividends, please refer to page 112 of the Bank's 2025 Annual Report, which information is incorporated by reference herein.

The Bank's common shares are eligible shares under the Bank's Shareholder Dividend Reinvestment and Share Purchase Plan (the "Plan"). Consequently, the holders of such shares may elect to reinvest their dividends in newly issued common shares of the Bank. Such purchases will be made at the applicable investment price as defined in the Plan, at no discount, and no brokerage commissions or service charges of any kind will apply.

During the fiscal years shown below, the Bank declared the following dividends:

	Dividends Declared (\$ per share)		
	2025	2024	2023
Common shares	1.88	1.88	1.86

5.1.2 Certain Provisions of Class A Preferred Shares

Issuance in Series

The Class A Preferred Shares are issuable in series and rank *pari passu* amongst themselves as to the payment of dividends and return of capital. The Board has the right, by resolution, subject to the *Bank Act* (Canada), the provisions contained in the rights, privileges, restrictions and conditions attaching to the Class A Preferred Shares as a class and any conditions attaching to any series of Class A Preferred Shares outstanding, to determine the number of shares in, and to determine the respective designation, rights, privileges, restrictions and conditions of, each series of Class A Preferred Shares. As at the date

hereof, there are 5,000,000 Non-Cumulative Class A Preferred Shares, Series 13 (the Preferred Shares Series 13) issued and outstanding.

In connection with the issuance of Limited Recourse Capital Notes in May 2021, the Bank issued 125,000 Non-Cumulative 5-Year Fixed Rate Reset Class A Preferred Shares, Series 17 (NVCC) (the **Preferred Shares Series 17**) to the Limited Recourse Trust to be held as trust assets in connection with the Limited Recourse Capital Notes Series 1. See section 5.1.3. below.

Dividends

The holders of any series of Class A Preferred Shares are entitled to receive dividends as declared by the Board, if any, in priority to the holders of common shares of the Bank and of shares of any other class of the Bank ranking as to the payment of dividends junior to the Class A Preferred Shares, in the amounts specified or determinable in accordance with the provisions of such series. Such dividends may be cumulative or non-cumulative and payable in cash or by way of stock dividend or in any other manner provided for by the Board.

Liquidation or Dissolution

In the event of the liquidation or dissolution of the Bank, or any other distribution of its assets to its shareholders with a view to winding up its business, before any amount is paid or any assets distributed to the holders of common shares of the Bank or of shares of any other class of shares of the Bank ranking junior to the Class A Preferred Shares, the holders of Class A Preferred Shares shall be entitled to receive, to the extent provided for with respect to each series, (i) an amount equal to the price at which such shares were issued, (ii) such premium, if any, as has been provided for with respect to such series, (iii) in the case of cumulative Class A Preferred Shares, all unpaid cumulative dividends, and (iv) in the case of non-cumulative Class A Preferred Shares, all declared and unpaid non-cumulative dividends. After the payment to the holders of Class A Preferred Shares of the amounts so payable, the holders of Class A Preferred Shares shall not be entitled to share in any further distribution of the assets of the Bank.

Voting Rights

Subject to the *Bank Act* (Canada) and except as otherwise expressly provided in the rights, privileges, restrictions and conditions attaching to any series of Class A Preferred Shares, the holders of Class A Preferred Shares do not have any voting rights for the election of directors of the Bank or for any other purpose, nor are they entitled to receive any notice of or attend shareholders' meetings.

Restrictions on the Creation or Issue of Additional Shares Having a Prior or Equal Rank

The Bank shall not, without the prior approval of the holders of Class A Preferred Shares, as a class given as hereinafter specified (but subject to such approval as may be required by the *Bank Act* (Canada) or any other legal requirement), create any class ranking in priority to or *pari passu* with Class A Preferred Shares. The Bank shall not, without the prior approval of the holders of Class A Preferred Shares as a class as provided for hereinafter (but subject to such approval as may be required by the *Bank Act* (Canada) or any other legal requirement), issue any additional series of Class A Preferred Shares or shares of any other class ranking in priority to or *pari passu* with Class A Preferred Shares, unless at the date of issue all cumulative dividends, including the dividend payment for the last complete period for which such cumulative dividend is payable, shall have been declared and paid or set apart for payment in respect of each series of cumulative Class A Preferred Shares then outstanding and all declared and unpaid non-cumulative dividends shall have been paid or set apart for payment in respect of each series of non-cumulative Class A Preferred Shares then outstanding.

Shareholder Approval

The approval of the holders of Class A Preferred Shares in regard to any question, particularly concerning amendments to conditions attaching to Class A Preferred Shares as a class, may be given in writing by the holders of all outstanding Class A Preferred Shares or by a resolution carried by no less than two thirds of the votes cast by the holders of Class A Preferred Shares, at a duly held meeting of such shareholders. The holders of the majority of issued and outstanding Class A Preferred Shares present or represented by proxy at the meeting constitutes the requisite quorum for any meeting of the holders of Class A Preferred Shares, provided that there are no quorum requirements with respect to a reconvened meeting. At any meeting of the holders of Class A Preferred Shares as a class, each holder shall be entitled to one vote for each Class A Preferred Shares held.

Contingent Conversion of Certain Series of Class A Preferred Shares

Effective January 1, 2013, in accordance with capital adequacy requirements adopted by OSFI, non-common capital instruments issued after January 1, 2013, including Class A Preferred Shares, must include terms providing for the full and permanent conversion of such securities into common shares upon the occurrence of certain trigger events relating to financial viability. The Preferred Shares Series 13 and Preferred Shares Series 17 contain non-viability capital provisions necessary to qualify as Tier 1 regulatory capital and are convertible into common shares upon the occurrence of a non-viability contingent capital trigger event.

5.1.3 Limited Recourse Capital Notes

In May 2021, the Bank issued \$125 million aggregate principal amount of 5.30% Limited Recourse Capital Notes, Series 1 (NVCC) (Subordinated Indebtedness) (the **Limited Recourse Capital Notes**), which represent Additional Tier 1 capital. The Limited Recourse Capital Notes are compound financial instruments that have both equity and liability features and are classified as equity in the Bank's Consolidated Financial Statements as at October 31, 2025.

The Limited Recourse Capital Notes will bear interest at a rate of 5.30% annually, payable semi-annually, for the initial period from the date of issuance to, but excluding, June 15, 2026. Thereafter, the interest rate on the Limited Recourse Capital Notes will reset every 5 years at a rate equal to the prevailing 5-year Government of Canada yield plus 4.334%. The Limited Recourse Capital Notes will mature on June 15, 2081.

In connection with the issuance of the Limited Recourse Capital Notes, the Bank also issued the Preferred Shares Series 17 to be held by Computershare Trust Company of Canada, as trustee of LBC LRCN Limited Recourse Trust (the **Limited Recourse Trust**). In certain circumstances, including, in the case of non-payment of principal of, or interest on, the Limited Recourse Capital Notes when due, the recourse of each noteholder will be limited to that holder's proportionate share of the Limited Recourse Trust's assets in respect of the Limited Recourse Capital Notes which, except in limited circumstances, will consist of Preferred Shares Series 17.

The Bank may redeem the Limited Recourse Capital Notes during the period from May 15 to and including June 15, commencing in 2026 and every five years thereafter, only upon the redemption by the Bank of the Preferred Shares Series 17 held in the Limited Recourse Trust, in accordance with the terms of such shares and with the prior written approval of OSFI, in whole but not in part on not more than 60 days' and not less than 10 days' notice.

Further details of the Limited Recourse Capital Notes may be found in Note 15 to the Bank's Consolidated Financial Statement as at October 31, 2025, which note is incorporated by reference herein.

5.1.4 Subordinated Capital Notes

As at the date hereof, the Bank currently has outstanding \$350 million 5.095% subordinated NVCC notes (**Subordinated Capital Notes**).

The Subordinated Capital Notes will bear interest at a fixed rate of 5.095% per annum, paid semi-annually, until June 15, 2027, and thereafter, at daily compounded CORRA plus 0.32138% (representing the spread adjustment for 3-month CDOR) plus 2.42% per annum, paid quarterly, until maturity on June 15, 2032.

The Bank may, at its option, with the prior approval of OSFI, redeem the Subordinated Capital Notes on or after June 15, 2027, at par, in whole at any time or in part from time to time, on not less than 30 days and not more than 60 days' notice to registered holders thereof.

The Subordinated Capital Notes are direct unsecured obligations of the Bank constituting subordinated indebtedness for the purposes of the Bank ranking at least equally with all other subordinated indebtedness of the Bank from time to time issued and outstanding and do not constitute deposits that are insured under the *Canada Deposit Insurance Corporation Act* or any other deposit insurance regime. In the event of the Bank's insolvency or winding up, the Subordinated Capital Notes will rank ahead of the Bank's common shares and Class A Preferred Shares.

The Subordinated Capital Notes include terms providing for the full and permanent conversion of such securities into common shares of the Bank upon the occurrence of certain trigger events relating to NVCC requirements in order to qualify as regulatory capital.

For more details on the Subordinated Capital Notes, please see Note 14 of the Bank's Consolidated Financial Statements as at October 31, 2025, which note is incorporated by reference herein.

5.2 Constraints

The *Bank Act* (Canada) contains restrictions on the issue, transfer, acquisition, and beneficial ownership of shares of a chartered bank. By way of summary, no person or persons acting jointly or in concert, shall be a major shareholder of a bank if such bank has equity of \$12 billion or more. While the equity of the Bank is less than \$12 billion and the *Bank Act* (Canada) would otherwise permit a person to own up to 65% of any class of shares of the Bank, the Bank is deemed to be a bank to which the ownership restrictions for banks with equity of \$12 billion or more apply until the Minister of Finance (Canada) specifies, on application by the Bank, that these restrictions no longer apply to the Bank. For purposes of the *Bank Act* (Canada), a person is a major shareholder of a bank where: (i) the aggregate number of shares of any class of voting shares beneficially owned by that person, by entities controlled by that person and by any person associated or acting jointly or in concert with that person is more than 20% of the outstanding shares of that class of voting shares; or (ii) the aggregate number of shares of any class of non-voting shares beneficially owned by that person, by entities controlled by that person and by any person associated or acting jointly or in concert with that person is more than 30% of the outstanding shares of that class of non-voting shares.

No person shall have a significant interest in any class of shares of a bank, including the Bank, unless the person first receives the approval of the Minister of Finance (Canada). For purposes of the *Bank Act* (Canada), a person has a significant interest in a class of shares of a bank where the aggregate number of shares of the class beneficially owned by that person, by entities controlled by that person and by any person associated or acting jointly or in concert with that person exceeds 10% of all of the outstanding shares of that class of shares of such bank.

In addition, the *Bank Act* (Canada) prohibits banks, including the Bank, from transferring or issuing shares of any class to His Majesty in right of Canada or of a province, an agent of His Majesty, a foreign government, or an agent of a foreign government.

5.3 Ratings

Information regarding the credit ratings assigned to the Bank is determined by credit rating agencies. As is common industry practice, the Bank pays fees to rating agencies to assign ratings based on the assessment of the quality of the Bank's earnings, capital adequacy, and effectiveness of its risk management programs.

A credit rating is important as it denotes the Bank's ability to access unsecured funding markets and to engage in certain collateralized business activities and normal course derivative or hedging transactions. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by a rating agency.

There can be no assurance that the Bank's credit ratings and rating outlooks will not be downgraded or that credit rating agencies will not issue negative or adverse commentaries about the Bank.

Additional information about the credit ratings assigned to the Bank's securities is provided under "Credit Ratings" on page 55 of the Bank's 2025 Annual Report.

As at December 4, 2025, the Bank has the following solicited ratings from the rating agencies listed below:

SCHEDULE A
Explanation of Ratings and Outlooks

Institution	Rating	Outlook
DBRS	<p>Each rating category may be denoted by the subcategories (high) and (low). The absence of either a (high) or (low) designation indicates the rating is in the middle of the category.</p> <p>AAA Highest credit quality. The capacity for the payment of financial obligations is exceptionally high and unlikely to be adversely affected by future events.</p> <p>AA Superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from AAA only to a small degree. Unlikely to be significantly vulnerable to future events.</p> <p>BBB Adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.</p> <p>BB Speculative, non-investment grade credit quality. The capacity for the payment of financial obligations is uncertain. Vulnerable to future events.</p> <p>R-1 (low) Good credit quality. The capacity for the payment of short-term financial obligations as they fall due is substantial. Overall strength is not as favourable as higher rating categories. May be vulnerable to future events, but qualifying negative factors are considered manageable.</p> <p>R-2 (high) Upper end of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events.</p> <p>Pfd-3 Preferred shares rated Pfd-3 are generally of adequate credit quality. While protection of dividends and principal is still considered acceptable, the issuing entity is more susceptible to adverse changes in financial and economic conditions, and there may be other adverse conditions present which detract from debt protection. Pfd-3 ratings generally correspond with issuers with a BBB category or higher reference.</p> <p>Pfd-4 Preferred shares rated Pfd-4 are generally speculative, where the degree of protection afforded to dividends and principal is uncertain, particularly during periods of economic adversity. Issuers with preferred shares rated Pfd-4 generally correspond with issuers with a BB category or higher reference point.</p>	<p>Rating Trends provide guidance in respect of DBRS Morningstar's opinion regarding the outlook for a rating. The Rating Trend indicates the direction in which DBRS Morningstar considers the rating may move if present circumstances continue, or in certain cases as it relates to the Corporate Finance sector, unless challenges are addressed by the issuer.</p>
S&P	<p>BBB An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor's capacity to meet its financial commitments on the obligation.</p> <p>BB An obligation rated 'BB' is less vulnerable to non-payment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions that could lead to the obligor's inadequate capacity to meet its financial commitments on the obligation.</p> <p>Long-term ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories.</p> <p>A-2 A short-term obligation rated 'A-2' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitments on the obligation is satisfactory.</p>	<p>An S&P Global Ratings outlook assesses the potential direction of a long-term credit rating over the intermediate term, which is generally up to two years for investment grade and generally up to one year for speculative grade.</p>
