(2) This is a supplementary financial measure. Refer to the Non-GAAP financial and other measures section for additional information.

(3) Toronto Stock Exchange (TSX) market price.

(4) Amounts reported include loans classified as held for sale in accordance with IFRS 5, *Non-current Assets Held for Sale and Discontinued Operation* on the Bank's Consolidated Balance Sheet.

(5) Through the Bank's partnership with THE EXCHANGE® Network, customers have access to thousands of automated banking machines in Canada.

## NON-GAAP FINANCIAL AND OTHER MEASURES

In addition to financial measures prepared based on generally accepted accounting principles (GAAP), management utilizes non-GAAP financial measures to evaluate the Bank's underlying and ongoing business performance. These non-GAAP financial measures, referred to throughout this document as adjusted measures, exclude items identified as adjusting items. Adjusting items consist of certain items of significance that arise from time to time which management believes are not indicative of underlying business performance.

Non-GAAP financial measures are not standardized financial measures under the financial reporting framework used to prepare the Bank's financial statements and may not be comparable to similar measures disclosed by other issuers. The Bank believes these non-GAAP financial measures are useful to readers in obtaining a better understanding of how management assesses the Bank's performance and in analyzing trends.

Non-GAAP ratios are not standardized financial measures under the financial reporting framework used to prepare the financial statements of the Bank to which the non-GAAP ratios relate and might not be comparable to similar financial measures disclosed by other issuers. Ratios are considered non-GAAP ratios if adjusted measures are used as components; refer to the Non-GAAP Financial Measures section above. The Bank believes non-GAAP ratios are useful to readers in obtaining a better understanding of how management assesses the Bank's performance and in analyzing trends.

Management also uses supplementary financial measures to analyze the Bank's results and in assessing underlying business performance and related trends.

For additional information, refer to the Non-GAAP financial and other measures section beginning on page 5 of the First Quarter 2026 Report to Shareholders, including the Management's Discussion and Analysis (MD&A) for the three months ended January 31, 2026, which pages are incorporated by reference herein. The MD&A is available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

(1) The profit on sale of assets under administration resulted from the sale of assets under administration of LBS' discount brokerage division in the first quarter of 2025. The profit on sale of assets under administration is included in the Other income line item. For additional information, refer to the Business Highlights section beginning on page 8 of the First Quarter 2026 Report to Shareholders including the MD&A for the period ended January 31, 2026. These pages are incorporated herein by reference.

(2) Restructuring and impairment charges in the first quarter of 2026 arose from the Bank's strategic shift to a specialty commercial bank and its exit from the retail and SME banking businesses. As part of this transition, management reassessed the recoverability of certain non-financial assets and recorded provisions related to the planned operational changes. In 2025, restructuring and other impairment charges primarily stemmed from the Bank's ongoing efforts to streamline its technology infrastructure and organizational structure, as well as from revised estimates related to lease contracts for corporate office premises. Restructuring and other impairment charges mainly comprised of impairment charges, severance charges, professional fees and charges related to leases and other, and are included in the Impairment and restructuring charges line item. For additional information, refer to the Business Highlights section beginning on page 8 of the First Quarter 2026 Report to Shareholders including the MD&A for the period ended January 31, 2026. These pages are incorporated herein by reference.

(3) In connection with the Transactions announced on December 2, 2025, the Bank recognized transaction and conversion costs in the first quarter of 2026 that are attributable to the successful completion of the Transactions. These costs primarily relate to legal fees, professional fees and other incremental expenditures incurred as a direct result of the Transactions, and are included in the Transaction and conversion costs line item. Certain costs that are conditional upon the closing of the Transactions will be recognized as they are incurred in subsequent periods. For additional information, refer to the Business Highlights section beginning on page 8 of the First Quarter 2026 Report to Shareholders including the MD&A for the period ended January 31, 2026. These pages are incorporated herein by reference.

(4) The net loss on the settlement of pension plans resulting from annuity purchases is related to the purchase of group annuity contracts de-risking the Bank's pension plans (or buy-out) and is included in the Salaries and employee benefits line item. For additional information, refer to the Business Highlights section beginning on page 8 of the First Quarter 2026 Report to Shareholders including the MD&A for the period ended January 31, 2026. These pages are incorporated herein by reference.

(1) Assets classified as held for sale under IFRS 5 remain subject to the same regulatory capital treatment until they are derecognized. Accordingly, the classification does not affect the measurement of the Bank's risk-weighted assets or regulatory capital ratios.

(2) Credit conversion factor (CCF) refers to the percentage used to convert an off-balance sheet exposure to its credit exposure equivalent.

(3) Credit-risk-mitigation (CRM) refers to the attempt by lenders, through the application of various safeguards or processes, to minimize the risk of losing all of their original investment due to borrowers defaulting on their interest and principal payments.

(4) To determine the appropriate risk weight, credit assessments by OSFI-recognized external credit rating agencies of Moody's and DBRS are used. Under the Standardized approach, the Bank assigns the risk weight corresponding to OSFI's standard mapping. For most of the Bank's exposures to sovereign and public sector entities, which are predominantly domiciled in Canada, these risk weights are based on Canada's AAA rating. In addition, the Bank relies on external ratings for certain rated exposures, mainly in the bank and corporate class. For unrated exposures, mainly in the retail and corporate classes, the Bank generally applies prescribed risk weights taking into consideration certain exposure specific factors including counterparty type, exposure type and credit risk mitigation techniques employed.

(5) The Bank has elected to set its capital requirement for CVA at 100% of its Counterparty Credit Risk charge.

(1) Amounts reported include loans classified as held for sale in accordance with IFRS 5, *Non-current Assets Held for Sale and Discontinued Operation* on the Bank's Consolidated Balance Sheet.

(2) Disclosed under OSFI's Residential Mortgage Underwriting Practices and Procedures Guideline (B-20).

(3) Including residential mortgage loans secured by one- to four-unit dwellings. Balances exclude hedge accounting adjustments and transactions fees.

(4) Insured residential mortgage loans are mortgage loans guaranteed by the Canada Mortgage and Housing Corporation or similar private mortgage insurers.

(5) Excluding loan renewals during the period.

### Potential impact on residential mortgage loans and HELOCS in the event of an economic downturn

In accordance with the Bank's credit risk management policies, the mortgage & HELOC portfolios are regularly reviewed to ensure that the level of risk associated with these portfolios remains in line with the Bank's risk tolerance and its strategic objectives. As part of this oversight, the portfolios are stressed to reflect the effects of a potential economic downturn creating a decline in property values. Due to the large portion of insured loans and the relatively low loan-to-value ratio of uninsured mortgage loans, reflecting the excellent quality of the guarantees, the Bank believes that loan losses under such a scenario would remain largely manageable.
