

Annual report as of 31st December 2024 approved

Pesaro, 14th March 2025

The Board of Directors of Biesse S.p.A. (“**Biesse**” or the “**Company**”) – company listed at the Euronext STAR segment of Milan Stock Exchange – examined and approved, during its meeting held today, the Annual Report as of 31st December 2024, including the Draft 2024 Consolidated Annual Financial Report with the sustainability reporting, as well as the Draft Financial Statements of the Company for the financial year ended on 31st December 2024.

In a still difficult market, marginality remains positive despite the sales’ reduction.

Consolidated results achieved by the Group in the 12 months of 2024:

- Consolidated net revenues of 754.7 million euros (3.9%) compared to 2023;
- EBITDA *adjusted* of 58.9 million euros, 7.8% of consolidated net revenues (9.8% in 2023);
- EBIT *adjusted* of 18.7 million euros, 2.5% of consolidated net revenues (5.1% in 2023);
- EBIT of 14.9 million euros, 2.0% of consolidated net revenues (3.1% in 2023);
- Net profit of 3.8 million euros, 0.5% of consolidated net revenues - EPS (net profit per share) 0.14 euros.

Revenue breakdown

Geographically, the Group’s sales breakdown by macro-area as of 31st December 2024 is:

- EMEA 63% (70% in December 2023)
- AMERICAS 24% (19% in December 2023)
- APAC 13% (11% in December 2023)

12 months (in € million)	FY 2024	FY 2023	Variation
Consolidated Net Revenues	754.7	785.0	-30.3 -3.9%
EBITDA <i>adjusted</i>	58.9	77.0	-18.1 -23.5%
EBIT	14.9	24.2	-9.3 -38.3%
Net Result	3.8	12.5	-8.7 -70.0%
Net Financial Position excluded IFRS16	+ 24.9	+ 118.5	-93.6 -79.0%
Net Financial Position	- 4.7	+ 93.0	-97.7 -105.1%

Net Financial Position

As of 31st December 2024, the Group Net Financial Position was positive for 24.9 million euros. Including the impact of 29.6 million euros deriving from the application of IFRS16 the Net Financial Position results, considering this accounting principle, is negative for 4.7 million euros.

Compared to the end of year 2023, the net financial position excluded IFRS16 decreases by 93.6 million euros, mainly because of the financial disbursement for the acquisition of GMM Finance S.r.l., holding of the GMM Group, provisionally equal to 69 million euros, while the remaining part of the variation is related to the consolidation of the net financial debt of GMM Group, to the payment of dividends in the first semester of 2024, to the financial disbursements for exit incentives, as well as to the dynamics related to net working capital, only partially compensated by the good results obtained in the operational management.

Balance sheet

Group Shareholders' Equity as of 31st December 2024: 263.4 million euros

Net Invested Capital as of 31st December 2024: 268.1 million euros

Net Operating Working Capital as of 31st December 2024: positive at 77.6 million euros

Comment by Chief Financial Officer of Biesse Group, Nicola Sautto

“2024 has been characterized by significant difficulties in our sector because of external phenomena as enduring restrictive monetary policies that are directly impacting interest rates and which only recently have recorded signs of loosening, still able however to slow down investments, government incentives related to industry 5.0 which struggle to take off, political conflicts about the tariffs announced by the US government which will have impacts on export, the sharpening of the already strong geopolitical tensions, and the disruptions of the supply chains in the Suez Canal and in the Red Sea.

In line with this scenario, the revenues of 2024 have confirmed a decreasing trend, in line with our forecast.

From a business point of view, the order portfolio of the Group at the end of 2024 has decreased compared to December 2023, with a value of 255 million euros, even if positively influenced by the acquisition of GMM Group (while the value as of 31st December 2023 was equal to 282 million euros), in a context of enduring general slowdown of order intake already begun in 2023, following the reduction of government incentives launched during the pandemic, particularly in the exceptionally stimulated Italian domestic market.

Despite the difficult and turbulent context, Biesse Group is determined to continue the process of strategic transformation and to reach a sizing of company's structure adequate to the new

model of business defined by the One Company project. We are accelerating the main projects involved in the three-year plan 2024-2026, in the absolute conviction that the long-term strategy, as defined by it, will allow us to achieve as soon as possible the benefits included in the plan itself. The focus is on the process of cost rationalization, in order to maintain an economic and financial equilibrium.

In conclusion, our evaluation is that the trend of the 12 months of 2024 will endure also for the next 6 months”.

Dividends

Due to the earnings and financial results achieved and particularly the net result emerging from the Draft Consolidated Financial Statements equal to Euro 3.749.852,85, it will be proposed to the Ordinary Shareholder Meeting the payment of a gross dividend of 0.04 euros per share, amounting to 1.096.103,72 euros entirely from net income for the year, in line with the rule adopted by the Group which provides the distribution of approximately the 30% of Group net profit.

The total disbursement for the proposed dividends amounts to 1.096.103,72 euros. Coupon date: 5 May 2025, record date: 6 May 2025; payment date: 7 May 2024. Coupon no. 19.
