

WELCOME

to your **co op** Micro Market

Retail on Demand

co op

It's what we do

Welcome

Introducing you to Co-op

Co-op is the UK's leading Convenience Retailer. With over 2,600 stores within our portfolio, we continue to proudly deliver consistent like-for like-growth across our business.

Our teams are a passionate bunch who have successfully collected a number of industry leading awards along the way. We care about the world we share and when it comes to Food Retail we want to work with you and your teams, to build an offer that meets your requirements; bringing the Co-op difference closer to you and your customers.

Brand presence

Our own-brand products lead the way in the convenience market, not only on taste, value and innovation, but also on sustainability and ethical sourcing. We can select a range of diverse products for your customers to purchase. Whether it's from our Coop own-label ranges, or leading brands they all know and love, we have it all.

Ethics and sustainability

A large increasing number of customers will be aware of Co-op's unrivalled approach to ethical retailing and our sustainability agenda, which underpins our business. These ethical commitments run through everything we do, including how we source and develop our products, how our operations are managed to reduce environmental impact and forging longstanding relationships with our Fairtrade farmers & growers. Co-op teams are constantly working hard to make sure all our packaging solutions are sustainable and Co-op has made a commitment that it's own brand products will be carbon neutral by 2025.

One Water

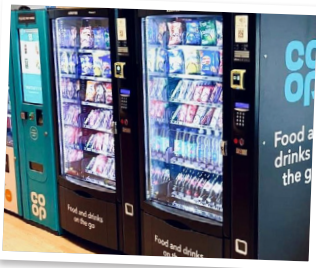

Working in partnership with The One Foundation, Co-op donate 3p per litre to water projects across the globe. So for every Co-op branded still, sparkling and flavoured water sold, together we're helping change lives.

Our services

Retail on Demand

We have a passion to ensure our products are available for customers as and when they want them. Working together with well established partners in the automated retail industry, Co-op have developed a way to bring our proposition to new customers through Vending, Automated Retail and our Co-op Brand Micro Markets.

Vending & Automated Retail

We can offer a range of Vending & Automated Retail solutions. Bringing sophisticated technology to this sector, meeting the ever changing demands of your customers.

Micro Markets

Are a cashless, unmanned mini Co-op where we can help build you a retail offer for your customers. This can include food for now, food for later, hot food, hot drinks, everyday essentials and much more.

Range & Innovation

Our Co-op team can bring to you a range that's tailored to meet your exact needs with access to over 40,000 products. We are proud of our own label credentials. Co-op continue to work closely with the Fairtrade foundation to launch industry leading and exciting new products.

Co-op's much loved Vegan brand Gro launched in 2020. It brings exciting innovation in a fast growing sector. It broadens our offer by further supporting key dietary segments for your customers.

Our work with UK farmers, enables us to use only British proteins with high animal welfare standards in our products too.

Our Premium Co-op Coffee brand, Ever Ground is delivering not only great quality coffee, it's also Fairtrade and ethically sourced.

**We look forward to starting
this journey with you.**
