

Co-op Food Own-brand Supply Chain Transparency

Our Co-op Future of Food ambition strategy for a sustainable future sets out a range of human rights goals and commitments, along with detailed targets to achieve these long-term goals.

One of our commitments is focused on supply chain transparency. In 2019 we identified 8 priority areas of activity, covering 17 sourcing countries. You can read more about these [here](#). Below is a full list of our Tier 1 supplying sites, including disaggregated worker data.

Since 2022, we have gone further by mapping and publishing details of all tiers of three of our high-risk supply chains: top and stone fruit, warm water prawns and pork. This provides us with greater transparency, as well as the ability to identify and address any human rights concerns. For further information please click [here](#).
