

Mother's Day fingerprint card

Celebrate Mother's Day with a gift that's one of a kind - a card made with your fingerprints.

All you need to get started is some paint, a pen, and a little bit of can-do spirit.

First, pop your thumb in some paint. Then, press your thumb onto the card to add some colourful leaves to your tree.

If you don't fancy getting your hands dirty, you could draw some leaves or another design instead. Whenever you're ready, simply write a message inside your card and pop it in an envelope.

Have fun!

Happy Mother's Day
