

Co-op Food Own-brand Supply Chain Transparency

Our Co-op Future of Food ambition strategy for a sustainable future sets out a range of human rights goals and commitments, along with detailed targets to achieve these long-term goals.

One of our commitments is focused on supply chain transparency. In 2019, we identified 8 priority areas of activity, covering 17 sourcing countries. You can read more about these [here](#). For even greater transparency we are now disclosing details of our Tier 1 supply chain, including disaggregated worker data.

In 2021 we are continuing to map our supply chains beyond the first-tier in high-risk categories and will be sharing details of suppliers at all tier levels for three high-risk supply chains.

As part of our commitment to champion the role of women and vulnerable workers in our supply chains, we have also disclosed disaggregate gender and temporary/agency worker data. Based on new available data we are also able to share that, in our supply chain, 25% managers identify as female.

In 2021 we will be providing greater transparency of gender disaggregated data and the steps we are taking to address risks of female workers in our supply chain.

It's what we do

Co-op Food Own-Brand Worker Profile Data (Tier 1 & 2)

| Country | Continent | Total number of sites | Total number of workers | Female identifying workers | Male identifying workers | Temporary/ agency workers | Sites with a worker committee/ trade union or both |
