

Draw your own tartan

The people of Scotland have been wearing tartan for at least three thousand years, and different designs are associated with different family names and clans.

If you share a Scottish name with your family, there's a chance you're already part of a clan with its own colours. It's thought around 20% of Scottish surnames can trace their roots back.

Draw your own tartan for your family clan

Design your own tartan using the template below. Get creative!
