

Memory Frame

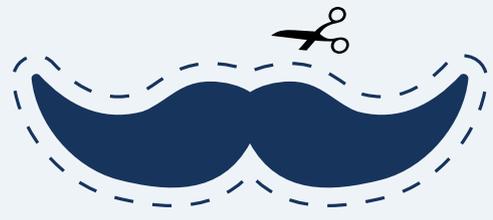

Father's Day – 16 June

Whether you're celebrating, remembering, or both, we want to help you make it extra special by adding your favourite pictures of Dad into our frame. It can be a recent memory, or something from back in the day – a special picture deserves to be put in a special place.

Cut out the frame and build it, then add your photo and anything else that reminds you of Dad, such as a cinema ticket or a shell from a memorable beach trip together. You can cut out and add our accessories too.

Top tip: using thick paper or card will ensure your Memory Frame is sturdy enough to support your favourite picture.
