

International Friendship Day

Friendship jar

International Friendship day is all about celebrating the magic of friendship. Think about some of the things you appreciate about your friends, your favourite memories about them, places you want to go with them, promises for the future and more. Then take an old jar and decorate however you like.

Drop these notes or keepsakes inside your jar and when International Friendship Day arrives, give it to a friend or a family member to show how much they mean to you.
