## Same Game Multis

1. A same game multi-bet is where all selections are part of the same event.
2. The dividend for a same game multi-bet is calculated differently to account for the contingency between markets. The price will be clearly displayed and updated as you select/remove legs from your same game multi-bet.
3. If a selection of a same-game multi-bet or same race multi bet does not start or is voided, the full same-game multi-bet or same race multi bet will be voided and your stake returned.
4. In the event that a Same Game Multi bet is placed where all selections are completely related contingencies, the bet will be paid out at the highest odds of any single selection.

For example:

- a. Man United to win \$1.30 into Man United to win 3-0 \$21, will be paid at \$21
  - b. Nat Fyfe to get 30 or more disposals \$1.50 into Nat Fyfe to get 35 or more disposals \$5 will be paid at \$5
5. Same Game Multi Bets cannot be Cashed Out.
  6. In the event of a dead heat in one or more Same Game Multi legs, standard Dead Heat Rules apply.

## Same Race Multis

1. Same Race Multi Bets are Multi Bets where the selections relate to a runner winning, finishing top 2, 3 or 4 in the same event. BlueBet's Multi Bet Rules apply in respect of Same Race Multi Bets.
2. In the event that a Same Race Multi bet is placed where all selections are completely related contingencies, the bet will be paid out at the highest odds of any single selection.
3. Same Race Multi odds are calculated based on the inter-relation of the selections in the bet and not a simple multiplication of odds for each selection
4. In the event one or more selections are scratched in a single Same Race Multi bet, that Same Race Multi bet will be voided and stake refunded to the Customer. If that bet has been placed into a Multi containing other Single/s or Same Race Multi's, the Same Race Multi leg in the multi will be voided but the remainder of the multi will stand and odds will be revised to take into account the voided leg.
5. Same Game Multi Bets cannot be Cashed Out.
6. In the event of a dead heat in one or more Same Game Multi legs, standard Dead Heat Rules apply.

## Multi Bets

1. A Multi Bet is a bet that selects two or more legs in a single bet. With the exception of same-game multis. the final dividend for a Multi Bet is the product of all winning legs in the bet. For example, a winning bet for Selection 1 at \$4.00 and Selection 2 at \$5 results in a final dividend of \$20 (\$4 X \$5).
2. If a Selection is scratched, abandoned, or does not start for any reason, we will recalculate the final dividend excluding that leg if the leg is not for an "All In" betting event.
3. The maximum dividend for a Multi Bet is \$1,001. Multi Bets (excluding Same game Multis and Same Race Multis) cannot be placed on "dependant events".
4. If a meeting is abandoned or postponed to another date, affected Multi Bets will be recalculated excluding that leg.
5. The maximum payout for a Multi Bet for a racing/sports or a combination of both is \$100,000. It is your responsibility to ensure you stake accordingly to the limits.

6. Maximum Multi Bet payout limits apply to any one customer or a group of customers who are in BlueBet's opinion acting together, who have placed bets containing the same selections, including where placed in a series of bets, at a range of prices, over a number of days using different betting accounts and/or across different betting channels. In such cases, the total payout across all bets/channels/accounts will not exceed the maximum payout limit of \$100,000.
7. Should a Member place a subsequent Same Game Multi Bet that reflects the initial Same Game Multi Bet and will result in the Member exceeding the \$100,000 payout maximum, the additional Same Game Multi Bets will be void and wagers refunded.
