BETR RACING RULES

20 November 2026

1. General

1.1. These are the betr Racing Rules ('Racing Rules'). betr is licensed in Tasmania by the Tasmanian Liquor & Gaming Commission (TLGC) to accept bets and wagers (together 'bets') by internet, telephone, 24 hours per day.

1.2. These Racing Rules shall be read in conjunction with the betr General Terms and Conditions and betr's Sport Rules (copies of which are located at www.betr.com.au or via our mobile phone or tablet applications (together 'the website'), which apply to all betr Customers. You and your means a Customer using, browsing or otherwise accessing any content or data on the website to place bets. You acknowledge and agree that, by applying for or using an Account (as defined in the betr General Terms and Conditions and/or placing bets, you agree to be bound by these Racing Rules.

1.3. All definitions referred to in the General Terms and Conditions (including terms referred to in capital letters) have the same meaning in these Racing Rules unless otherwise stated. In the event of any inconsistency between the General Terms and Conditions and these Racing Rules, the Racing Rules will prevail to the extent of such inconsistency.

1.4. We reserve the right to change, amend or add to these Racing Rules at our discretion, and will publish such changes on our Website. You agree that any changes, amendments or additions published on our Website will be taken to be effective immediately. It is your responsibility to ensure that you are aware of the current Racing Rules.

1.5. These Racing Rules apply to Australian and international thoroughbred, harness and greyhound racing events unless otherwise specified.

1.6. "One Pool", or any other name for which it is known including "National Tote", means the single, merged Australian totalizator pool for thoroughbred, harness and greyhound racing operated by Tabcorp, which replaced the separate NSW TAB, SuperTAB (VIC/WA/ACT) and UNITAB (QLD/SA/TAS/NT) pools.

1.7. For the purposes of these rules, a One Pool race is a race where totalizator bets are pooled into a national totalizator pool, regardless of the names under which dividends are published.

1.8. Bets will be settled as per the official decision of stewards on race day. Where a horse is subsequently disqualified or placings amended at a later date, for any reason, the official result as declared by stewards on the day of the race will stand.

2. Abandoned / Postponed / Transferred Meetings

2.1. Where a race meeting is transferred from one racecourse to another, or a race is moved to a different track at the same racecourse, all bets placed before the transfer are void and refunded. Betting on the meeting as transferred is subject to the betting Terms, including betting limits, that applied to the meeting as originally scheduled.

2.2. If a race meeting is postponed, all wagers on the postponed meeting (except wagers in the All In market) are cancelled. If a race meeting is abandoned, all wagers on affected races are cancelled.

3. Resulting and payment of dividends

3.1. Where there are 8 or more runners in a race, a place shall be paid on first, second and third places. If you wagered on a fixed place only bet when the field had 8 or more runners and the field later reduced to 7 or less runners, first, second and third places will be paid, but deductions may apply.

3.2. Where there are 7, 6 or 5 runners in a race, a place shall be paid on first and second places only.

3.3. Where there are less than 5 runners in a race, all betting shall be Win only.

3.4. If the runner is scratched, the stake will be refunded (except All In wagers).

3.5. Dividends Win, Place and Each Way bets are paid on all Australian racing (gallops, harness and dogs) shortly after interim dividends are available.

3.6. Past the post payout does not apply to multi-bets or exotics which are only finalized when the TAB has published the final results and dividends.

3.7. All Racing exotics (Doubles, Trebles, Quinella, Exacta, Trifecta, First Four and Quadrella) are paid at the dividend declared by One Pool.

3.8. Protest Payout Terms and Conditions (available on the betr Promotions page) apply. If a protest against a place-getter is upheld, we will recover dividends paid under past the post payout rules if placegetter is relegated from the placings.

3.9. Should a malfunction or any other reason result in no One Pool dividend or pool information being available, we may, at our own discretion, declare our final fixed odds dividend (Starting Price or SP) as the substitute dividend for that event. Should the bet be a multi race exotic (Daily Double/Running Double/Treble/Early Quaddie/Quaddie/Big 6), or a single race exotic (Quinella, Exacta, Trifecta, First Four) we may derive a dividend using the final fixed prices of the winning selections.

3.10. Where the total investment in a pool is materially less than would reasonably be expected for a comparable race, having regard to the code, class and location of the meeting, we may, at our own discretion, declare the Starting Price (SP) as the substitute dividend for that event. Should the bet have no SP equivalent or be a multi race exotic (Daily Double/Running Double/Treble/Early Quaddie/Quaddie/Big 6), we may derive a dividend using the final fixed prices of the winning selections.

3.11. At the discretion of betr management, TAB pools of under $500 may be disregarded in the calculation of Betr Tote dividends.

3.12. Where a Win, Place or Each Way bet is settled in whole or in part by reference to a Tote dividend, including where those bets form a leg of a Multi:

(a) betr may, at its reasonable discretion, decide that a Tote dividend does not fairly represent the market for that selection, having regard to:

i) prevailing Fixed Odds prices offered by Australian bookmakers;
ii) betting exchange prices and matched volumes, including the Betfair Starting Price;
iii) the official Starting Price; and
iv) the distribution of money in the Tote pool relative to those markets.

(b) Where betr makes that decision, it may settle the affected bet, or the affected leg of a Multi, at a price that fairly represents the market. That price will be determined by reference to the matters in (a) and will be no less than betr's final Fixed Odds price.

4. Scratchings and Deductions

4.1. In the event of a scratching, all Fixed Odds bets placed on the Final Field will be subject to deductions. The deduction rate will be applied based on the fixed odds of the scratched selection at the time the selection has been removed from the market. The deduction will be based on face value of the entire ticket. For example:

4.2. If you have $5.00 to win on a $6 winner – and total win Deductions are 16c in the dollar:

- This means you will receive 84c in every dollar of the Face Value of the ticket.
- Face Value: $5 x 6.0 = $30.
- Reduced Face Value: $30 x .84c = $25.20
- Less your $5 outlay leaves a win profit of $20.20.
- In the event multiple runners are scratched from an individual race a combined deduction of multiple runners maybe applied depending on the time of the bet and the time of the individual Deductions.

4.3. In the event of a field reducing in size from 8 runners to 7 or less runners, for wagers placed via the Internet, betr will pay three dividends on all fixed odds place bets struck prior to the field being reduced. These wagers will be subject to relevant deductions.

4.4. In the event of a field reducing in size from 5, 6 or 7 runners to less than 5 runners, for wagers placed via the Internet, betr will pay two dividends on all fixed odds place bets struck prior to the field being reduced. These wagers will be subject to relevant deductions.

4.5. If a client places a Fixed Odds Place wager over the Internet and there is only 5, 6 or 7 runners then betr only pays 1st and 2nd regardless of whether One Pool pays 1st, 2nd and 3rd dividends courtesy of late scratchings.

Scale of Deductions

Price Range	Win Deductions %	Place Deductions % (three place dividends)	Place Deductions % (2 place dividends)
1.01 - 1.16	80	30	44
1.17 - 1.18	79	30	44
1.19 - 1.20	78	30	44
1.21 - 1.22	77	30	44
1.23 - 1.24	75	29	43
1.25 - 1.26	74	29	43
1.27 - 1.28	73	29	43
1.29 - 1.30	72	29	42
1.31 - 1.35	69	29	42

31.01 - 41.00	2	3	3
41.01 - 51.00	2	2	2

5. Official Results

5.1. All bets will be settled on the official result declared by the racecourse (Official Result).

5.2. Where a result is amended after the Official Result (for example following a successful appeal) the amendment will be ignored for the purposes of settlement (settlement is the final payout once an event is finalised). If a winner is disqualified after the Official Result, the disqualification will not affect settlement.

5.3. However, if a horse is disqualified for any reason before the official result is

announced, all bets on that horse will be deemed losing bets.

5.4. We reserve the right to limit any individuals/groups, so that the payout on any bet type does not exceed the One Pool pool size for that bet type.

5.5. All bets are subject to our Maximum Payouts as outline in betr's General Terms and Conditions.

6. betr Bet Types

6.1. Below is a description of betr Racing Products on offer. Depending on the status of the race meeting, differing products will be available daily as stated on the betr website. The below summaries should be read in conjunction with betr's Products and Promotions Terms and Conditions. For the purposes of this section, in the event of any inconsistency between the Products and Promotions Terms and Conditions and these Racing Rules, the Products and Promotions Terms and Conditions will prevail to the extent of such inconsistency.

Betr Tote	Pays no worse than the One Pool dividend. Betr Tote may pay a premium on the One Pool dividend and in that case the premium is only calculated on the profit portion of the dividend, not the stake. For example, a dividend of $3.00 and a premium of 5% would pay $3.10. Any premium applies to the Win portion of a bet only. Place Only bets, and the place portion of an Each Way bet, are paid at the One Pool place dividend without any premium. The level of any premium is at betr's discretion and will be published before Betr Tote is offered on the relevant race. The premium applicable to a bet is the premium published at the time the bet is placed.
Betr Tote Plus SP	This product pays the better of the Betr Tote bet type or the SP bet type. Betr Tote Plus SP only applies to the Win portion of a bet. For any Place Only bet, or the place portion of an Each Way bet, bets are paid at Betr Tote. The Betr Tote dividend is the dividend payable under Betr Tote, including any premium published at the time the bet is placed.
SP	SP for Australian events is the final official dividend offered at time of jump (e.g. Victorian Official Price or VOP). SP for international races is the final dividend offered on the betr website at time of jump.

Fixed Odds	Fixed win & place odds are the odds received at time of placement. Fixed odds are available on the betr website and may be subject to deductions where there is a late scratching. Once confirmed, fixed odds are not subject to fluctuation.
Top Fluctuation	This product is the best price declared by the official On-Course Bookmakers Fluctuations (or equivalent, e.g. VOP, NOP, QOP etc.). Each Way Betting is only available on certain races; determined at betr management discretion, based upon individual market percentages. Unless otherwise permitted by betr, Top Fluctuation wagers: a) are only available up until thirty minutes prior to scheduled start time; b) are to win a maximum of $10,000 (where a Client places a wager that would result in the Client winning more than the limits stated above on a Top Fluctuation bet, the balance of the stake that would result in a win in excess of the limits will be placed at the official SP, with a maximum dividend of $101.)
Multi Bets (All-Ups)	A Multi Bet is the combination of numerous single bets which multiply the individual odds creating the total dividend. betr accepts Multi Bets from 2- 12 legs including a combination of Racing and Sports. betr maximum dividend for this product is $1,001. Multi Bets cannot be placed on “dependent events”. In the event of a Multi Bet selection(s) being scratched or an event abandoned, Multi Bet will be recalculated to a single bet or a Multi not including the scratched/abandoned leg. In the event of a dead heat in one or more Multi Bet legs, standard dead heat rules apply. In the event of a selection being scratched in the same race as a Multi Bet selection, betr reserves the right to apply deductions. In the event of a protest being upheld, Multi Bet will be based on the final official placings - ie. betr’s Protest Payout promotion will not apply to Multi Bet.

Same Race Multis (SRM)	SRM Bets are Multi Bets where the selections relate to a runner winning, finishing top 2, 3 or 4 in the same event. betr's Multi Bet Rules apply in respect of SRM Bets. In the event that a SRM bet is placed where all selections are completely related contingencies, the bet will be paid out at the highest odds of any single selection. SRM odds are calculated based on the inter-relation of the selections in the bet and not a simple multiplication of odds for each selection In the event one or more selections are scratched in a single SRM bet, that SRM bet will be voided and stake refunded to the Customer. If that bet has been placed into a Multi containing other Single/s or SRM's, the SRM leg in the multi will be voided but the remainder of the multi will stand and odds will be revised to take into account the voided leg.
4 Fold	A bet on four selections, all of which must win for the bet to be successful.
Trixie	A wager on three selections that consists of four separate bets: Three doubles and a treble

Yankee	A wager on four selections that consists of 11 separate bets: Six doubles, four trebles and a 4-fold.
Super Yankee	A wager on five selections that consists of 26 separate bets: 10 doubles, 10 trebles, five 4-folds and a 5-fold
Patent	A wager on three selections that consists of seven separate bets: Three singles, three doubles and a treble.
Lucky 15	A wager on four selections that consists of 15 separate bets: Four singles, six doubles, four trebles and a 4-fold.
Lucky 31	A wager on five selections that consists of 31 separate bets: Five singles, 10 doubles, 10 trebles, five 4-folds and a 5-fold.
Quinellas	All quinella bets shall require the selections to finish in 1st and 2nd place, in any order, to be successful. All boxed quinella bets shall require any of the selections to finish in 1st and 2nd place, in any order, to be successful. All banker quinella bets shall require any of the nominated selections to finish in the correct place (i.e. 1st or 2nd) with any of the remaining selections finishing in the remaining placing as selected. If a selected runner is declared a 'non-runner' or scratched after the wager is confirmed, wagers will be refunded on every combination which includes the scratched runner and the combination stands and the wager re-calculated without the scratched runner.
Exactas	All exacta bets shall require the selections to finish in 1st and 2nd place, in correct order, to be successful. All boxed exacta bets shall require any of the selections to finish in 1st and 2nd place, in any order, to be successful. All banker exacta bets shall require any of the nominated selections to finish in the nominated position (i.e. 1st or 2nd) with any of the remaining selections finishing in the remaining position as selected. If a selected runner is declared a 'non-runner' or scratched after the wager is confirmed, wagers will be refunded on every combination which includes the scratched runner and the combination stands and the wager re-calculated without the scratched runner.

Trifectas	All trifecta bets shall require the selections to finish in 1st, 2nd and 3rd place, in correct order, to be successful. All boxed trifecta bets shall require any of the selections to finish in 1st, 2nd and 3rd place, in correct order, to be successful. All banker trifecta bets shall require any of the nominated selections to finish in the correct position (i.e. 1st, 2nd or 3rd) with any of the remaining selections finishing in the remaining positions as selected. If a selected runner is declared a 'non-runner' or scratched after the wager is confirmed, wagers will be refunded on every combination which includes the scratched runner and the combination stands and the wager re-calculated without the scratched runner.
First Fours	All first four bets shall require the selections to finish in 1st, 2nd, 3rd and 4th place, in correct order, to be successful. All boxed first four bets shall require any of the selections to finish in 1st, 2nd, 3rd and 4th place, in correct order, to be successful. All banker first four bets shall require any of the nominated selections to finish in the correct position (i.e. 1st, 2nd, 3rd or 4th) with any of the remaining selections finishing in the remaining positions as selected. If a selected runner is declared a 'non-runner' or scratched after the wager is confirmed, wagers will be refunded on every combination which includes the scratched runner and the combination stands and the wager re-calculated without the scratched runner.
Flexi Betting	Flexi Betting allows you to take a Quinella, Exacta, Trifecta, First Four or Quadrella at an outlay to suit your own budget. This way you can have multiple selections for a smaller outlay. Simply make your selections and nominate the total amount you wish to spend on your bet. Your bet will cost whatever you choose – and if you win you will receive a percentage of the full $1 One Pool dividend. For example, let's say you wish to box five runners in a Trifecta on a One Pool race. This bet would normally cost $60 for a $1 unit. If you decide you want to spend $15, that's all it will cost. $15 represents 25% of a full $1 unit (total cost of $60), meaning if successful, you will receive 25% of the full $1 One Pool Trifecta dividend. Thus, if the winning Trifecta dividend is $200 for $1, you will collect $50. The minimum wager for Flexi Betting is $1.
Doubles, Trebles, Quadrellas, Big 6	All Quadrella, Treble, Daily Double, Running Double and Big6 bets shall require the selections to finish 1st in respective races to be successful. If a selected runner is declared a non-runner or is scratched after the bet is confirmed, the removed runner will be replaced by the TAB substitute. Should a leg of a Quadrella, Treble, Daily Double, Running Double or Big6 be abandoned for any reason, all selections will be treated as winners for that leg.

Inside v Outside	Select whether the winner of the race will jump/start from the inside four boxes (boxes 1 to 4) or from the outside four boxes (boxes 5 to 8). This market is only available when fixed odds betting is available on an event. Please note, if a horse or greyhound is scratched that is $6.00 or shorter at the time of the scratching, all bets on the Inside Vs Outside market may be voided and refunded. Dead heat rules apply.
Odds v Evens	Select whether the winner of the race will have an ODD or EVEN saddlecloth or greyhound jacket number. This market is only available when fixed odds betting is available on an event. Please note, if a horse or greyhound is scratched that is $6.00 or shorter at the time of the scratching, all bets on the Odds Vs Evens market may be voided and refunded. Dead heat rules apply.
Jockey Challenge	Jockey Challenge bets are available on selected meetings on a 'Win Only' basis. The winning jockey is the rider who accrues the most points based on the 3-2-1 system where the Jockeys receives 3 points for a winning ride, 2 points for finishing second and 1 point for finishing third. In the event of a tie, Dead Heat rules apply and the ticket will be paid out at face value divided by the number of dead-heating winners of the event. This is regardless of the number of outright winners ridden by the listed jockeys. The "Any Other Individual Jockey" option shall be defined as the points earned by any one individual jockey riding at that meeting outside of the jockeys already nominated in the list of betting options for that meeting. If any Individual Jockey listed in the market does not take part in at least one (1) ride for the meeting, all wagers on the Jockeys challenge for that meeting will be cancelled and monies refunded. If the meeting is postponed or abandoned at any stage, all wagers on the Jockey Challenge for that meeting will be cancelled and monies refunded except where in the event of Jockey Challenge betting a jockey has an unassailable lead in which case all bets stand.

Race Specials	betr may offer markets on named runners from a single race, comprising the market types set out in this rule. All Race Specials are settled on the official result as declared by the stewards (Rule 5.1). Head to Head: A Head to Head names two runners from the same race. Bets are settled on the higher finishing position of the two named runners. Trios: A Trio names three runners from the same race. Bets are settled on the highest finishing position among the three named runners. Combo Matchups: A Combo Matchup groups named runners from the same race into two sides. A side's finishing position is that of its highest-placed member; the winning side is the one whose highest-placed member finishes ahead of the other side's highest-placed member. Race Groups: A Race Group names a group of select runners from the same race. Bets are settled on the highest finishing position among the named runners in the group. Scratchings: If any named runner in a Race Special is scratched before the race, all bets on that market are void and refunded. Each Race Special is published with a finishing threshold placing. At least one named runner in the market must finish at or above the threshold placing for bets to stand; otherwise all bets on the market are void and refunded. Dead heats: A dead heat affecting the settlement of a Race Special is settled under the Dead Heat rule. Postponement and abandonment: If the meeting is postponed or abandoned, Rule 2.2 applies.
All In	A betting proposition where no refunds are given for scratchings or withdrawals regardless of whether or not a particular runner starts or completes the event on which the bet is placed. This means that all bets stand, no refunds are payable, and no deduction applies to winning bets. If your bet is 'All In' this will be denoted next to the event title and in the Betslip.

Box Challenge	betr offers a Box challenge, which Customers should note is a distinct product from a Rug Challenge. Box Challenge bets are available on selected meetings. The box is defined as the dog Box Number from which it jumps in the race (not the rug it carries). Betting is Win only and all bets are accepted on an all-in basis (i.e. no refunds for non-starters.) The winning box for the meeting is decided under a 3, 2, 1 points scoring system. All bets placed must be placed prior to the commencement of race 1 of the race meeting for wagers to stand. In each race of the meeting, the winning Box Number receives 3 points, the second placed Box Number receives 2 points and the third placed Box Number receives 1 point. The Box Number that accumulates the most points throughout the meeting is deemed the winner. In the event of a dead heat, where two or more Box Numbers are equal on points at the completion of all races at the meeting, the Dead Heat Rule applies. If a meeting is abandoned or postponed to another date, or any individual race is abandoned or declared a "no-race" by the stewards, single bets are void and wagers will be refunded unless a Box Number has an unassailable lead at the time of abandonment, in which case all bets stand. Affected Multi Bets will be recalculated excluding the Box Challenge event. Wagers will not be voided and refunded where a Box Number has an unassailable lead in which case all bets stand. In the event of two or more dogs dead heating for the win and/or place; points are shared equally by the number of competitors that Dead Heat.
Jockey/Box Number of Wins Markets	betr may offer markets on the number of wins a nominated jockey or greyhound box records at a specified meeting. Each market is framed on a declared number of rides (jockey) or starts (box), being the participant's known rides or starts at the time, published with the market. Wins are counted from the stewards' declared results; a dead-heat winner counts as a win. Rides or starts acquired after the market is framed do not count towards the number of wins. If a scratching or abandonment reduces the participant's rides or starts below the declared number: (a) a bet on an outcome that is not achieved, but would have been achieved had each ride or start removed by the scratching or abandonment been a win, is void and refunded; (b) all other bets stand and are settled on the participant's actual number of wins from the rides or starts counted under this rule.

	A bet may be settled or voided before the end of the meeting once its result is certain. If the meeting is postponed, Rule 2.2 applies.
Jockey/Box Challenge Quinellas and Exactas	betr may offer Quinella and Exacta markets over the final points result of a Jockey, or Box Challenge. Selections are the listed challenge participants; the finishing order is their final points ranking for the meeting, determined under the relevant Challenge rules. A Challenge Quinella pays where the two nominated participants finish first and second on points in either order; a Challenge Exacta requires the correct order. A tie for a ranked points position is resolved under the general Dead Heat rule. If any individual Jockey or box listed does not compete in at least one race, all bets will be refunded unless any outcome has an unassailable lead. If the meeting is abandoned all bets will be refunded unless any outcome has an unassailable lead. If the meeting is postponed, Rule 2.2 applies.
