

Safety is a core value for Schiphol

We care about the people that work for us, work with us and visit us

Zero safety incidents is our ultimate goal

Being a leader within Royal Schiphol Group I will commit myself to the following principles:

- I will be a visible leader in the work place and lead by example
- I will strive for continuous improvement by encouraging the sharing of lessons learned
- I will contribute in building an open and 'just' culture in which people can report dilemma's and hesitations
- I will improve on safety by working together with our partners
- I will bring our principles into action by conducting safety walks and safety moments
