

# ZenFUL

## Streamlining finance, enhancing efficiency

ZenFUL – Zensar’s proprietary financial and administrative (F&A) solution orchestrates end-to-end processes to streamline finance operations and drive cost efficiency. ZenFUL harnesses the latest technologies, integrating data analytics, workflow automation, robotic process automation (RPA), and advanced reporting. Its sophisticated use of AI and ML technologies enhances automation capabilities across multiple functional areas, ensuring optimum outcomes.

### Success Stories

Expanding possibilities:  
Our proven track record of success

Implemented the ZenFUL solution for a leading US-based MedTech firm, **achieving 120,000 orders with an accuracy of 99.87%. This circumvented \$54 Mn worth of potential revenue loss and reduced DSO from 55 to 33.6 days.**

AP optimization for a leading US-based manufacturing organization, resulting in **5,000+ reconciled vendor accounts, 88 percent timely payments, and processing of 130,000 invoices with 99.7 percent accuracy.**

Intelligent automation of F&A processes for a leading manufacturing organization, leading to **90 percent faster payments, 75 percent improved vendor experience, 0 percent error rate, and 98 percent automation, with 13,680 hours returned to business.**

Order to Cash process improvement for a US-based tech organization, resulting in **13 automated finance and sales processes, achieving 50 percent annual savings, 70 percent average handling time reduction, and 30 percent compliance improvement.**
