

Matador MP81 Conquerra

- Excellent performance for today's 4x4's

► Benefits

Safety

- Protection against aquaplaning

Performance

- Excellent handling

Environment

- Quiet drive

► Description

The MP81 Conquerra is a 4x4 tyre designed for 90% on-road use and 10% light off-road. Designed for today's modern 4x4's the MP81 offers excellent protection in the wet with its wide circumferential grooves and open shoulders. Continuous circumferential ribs also increase the tread stability and combined with an increased volume of rubber on the outer shoulder, returns superb handling characteristics. The computer aided design tread pattern ensures a quiet drive.

► Features and Benefits

No	Image	Feature	Effect	Benefit
1		Wide circumferential grooves	Rapid water dispersion	High protection against aquaplaning
2		Continuous circumferential ribs	Increased tread stability	Excellent handling
3		High proportion of rubber on outer shoulder	Maximum lateral stiffness	Superb handling
4		Computer aided design tread pattern	Smooth contact patch transition onto road surface	Quiet drive
