

Reliable in summer

MPS330 Maxilla 2 For transporters and vans

- ▶ High mileage
- ▶ Increased ride stability even under heavy loads
- ▶ Safe braking on dry or wet roads

Matador. A brand of Continental.

MPS330 Maxilla 2

For transporters and vans

Technical Highlights

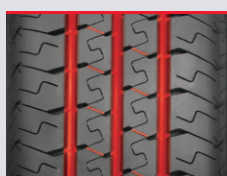

High mileage

The sturdy tread design and the flat tyre contour improve load carrying capacity and enlarge the abrasion volume. This leads to greater mileage and longer service life.

Increased driving stability even under heavy loads

Sturdy tread blocks and strong shoulder blocks increase driving stability. Handling remains safe even when transporting heavy loads.

Safe braking on wet roads

Three wide grooves running around the tyre, with special block edges and sipes, ensure the efficient displacement of water from the ground contact area, ensuring safe braking on roads. At the same time it offers good resistance to aquaplaning.
