

Chapter 73

ANTI-GOUT DRUGS

Drugs Used During Acute Stage

Anti-inflammatory drugs

Synthetic

NSAID
Glucocorticoids

Natural

Colchicine

Drugs Used for Correction of Hyperuricaemia

Inhibitors of uric acid synthesis

Xanthine oxidase inhibitors

Purine analogues
Allopurinol
Non-purine analogues
Febuxostat

Enzymes

Rasburicase
Pegloticase

Promoters of uric acid secretion
(uricosuric drugs)

Probenecid
Sulphinpyrazone
Benzbromarone
Azapropazone
