

## Chapter 41

## DRUGS USED IN THE TREATMENT OF PEPTIC ULCER

## Antisecretory agents

## Proton pump inhibitors (PPI)

Omeprazole  
Pantoprazole  
Lansoprazole  
Rabiprazole

H<sub>2</sub>-receptor blockers

Cimetidine  
Ranitidine  
Famotidine  
Nizatidine

## Antimuscarinics

Pirenzepine

## Mucosal protective agents

Bismuth salts  
PGE analogues (Misoprostal, Enprostil,  
Arbaprostil, Rioprostil)  
Sucralfate

## Acid neutralising agents

## Systemic antacids

Sodium bicarbonate

## Nonsystemic antacids

Aluminium  
Hydroxide gel  
Magnesium trisilicate  
Magnesium hydroxide  
Calcium carbonate

## Antihelicobacter antimicrobials

Amoxicillin  
Clarithromycin  
Tetracycline  
Metronidazole

Bismuth subsalicylate
