Catch the fog in the autumn
Return to the nature of art
Florence ,the treasure house of Renaissance , has the
beauty of David's hardness and Venus's elegance. Its
theme is harmony ,grace, solemnity and order. We now
paint on the porcelain and name our porcelain series
after Florence so as to retain and solidify the influence of
Renaissance .Our Florence series are like the fog in the
morning in autumn ,wafting in the space .

MORE SIMPLICITY .
MORE PLEASING TO THE EYES

Florence has size 600*600mm and 600*1200mm.
There are 4 colors for you to choose and they are all
gray tone , which is suitable for many different styles .
Its colored glaze is self-designed and overlay pour
glaze technology is adopted . The surface the is matte
but not coarse. Florence can be widely used in walls
and floors ,integrating the walls and floors and
showing the beauty of years.

The cloud color seems boring at first sight ,
but is actually elegant and quiet .
Its texture is intangible like fog .
All the hustle and bustle would vanish in it.

The soft brownness color is calm and full of texture.
Unsaturation is its main melody and core .
It looks unadorned , but tiny color overlap contrast is
the best base color in the space .
