## Designed to Inspire

Exclusively developed by Dongpeng, Marble+ shows the elegance and luxury feel of stone but still keeps the exceptional performance of unglazed porcelain tile. It adds a technology component to a very noble and fine material. Incredible colour, detail and veining are uniquely and beautifully reproduced on every tile.

An aesthetic essence and high technology come together in harmony to give birth to marbles of rare beauty, that is outstanding in their superior technical features and reminiscent of the perfection of nature.

# Infinite Possibilities

Thanks to the high performance of the unglazed porcelain, together with protective layer created through the printing process, this is the ideal product to be used in high traffic areas.

This innovative improvement adds high stain resistance surface and slippery resistance that makes the product suitable for both exterior and interior applications.
